Thirty-Third Annual Report

OF THE

Indiana School for Feeble-Minded Youth

FORT WAYNE, INDIANA

For the Fiscal Year Ending
September 30, 1911

To the Governor

INDIANAPOLIS :

WM. B. BURFORD, CONTRACTOR FOR STATE PRINTING AND BINDING

1912

504410

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
FEBRUARY 20, 1912.

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

OFFICE OF AUDITOR OF STATE,
INDIANAPOLIS, February 24, 1912.

The within report, so far as the same relates to moneys drawn from the State Treasury, has been examined and found correct.

W. H. O'BRIEN,
Auditor of State.

MARCH 5, 1912.

Returned by the Auditor of State, with above certificate, and transmitted to Secretary of State for publication, upon the order of the Board of Commissioners of Public Printing and Binding.

MARK THISTLETHWAITE,
Secretary to the Governor.

Filed in the office of the Secretary of State of the State of Indiana, March 5, 1912.

L. G. ELLINGHAM,
Secretary of State.

Received the within report and delivered to the printer, March 5, 1912.

ED D. DONNELL,
Clerk Printing Board.

BOARD OF TRUSTEES.

REV. ANTHONY M. ELLERING, President, Michigan City.
GEORGE D. GABY, Vice-President, Albion.
JAMES W. SALE, Treasurer, Bluffton.
MRS. MARY R. HARPER, Secretary, Fort Wayne.

OFFICERS.

ALBERT E. CARROLL, Superintendent.
MRS. A. M. WHEATON, Matron.

MEDICAL DEPARTMENT.

CHARLES G. BEALL, M. D., Chief Consultant.
THOMAS L. TAYLOR, M. D., Resident Physician.
NELLIE HANAWAY, M. D., Assistant Physician.

MEDICAL CONSULTING STAFF.

Surgery.

MILES F. PORTER, A. M., M. D.

Internal Medicine.

B. VAN SWERINGEN, M. D.

Ear, Eye, Nose and Throat.

KENT K. WHELOCK, M. D.

ACCOUNTING DEPARTMENT.

MELVIN DRUCKEMILLER, Chief Clerk.
LEONE P. MARSH, Superintendent's Secretary.
JESSIE LINDSEY, Stenographer and Bookkeeper.
CAREY WEATHERHOLT, Night Clerk.
MARGARET TOWNSEND, Record Clerk.
FRANK ANGLIN, Storekeeper.

SCHOOL DEPARTMENT.

FRANCES HAMILTON, Principal.
GRACE THOMPSON, Grammar Grade and Library.
MRS. ALICE SUMMERBELL, Receiving School.
MARJORIE SMITH, Kindergarten.
GRACE M. LEONARD, Kindergarten and Primary.
MRS. MARTHA KIMBLE, Primary.
ELIZABETH E. McOWAN, Primary.

FRANKIE JONES, Primary and Intermediate.
 GERTRUDE HARLOWE, Primary and Intermediate.
 MARIE WINTERMOTE, Art and Grammar Grade.
 ADA JANE BANKS, Art Needle Work.
 MARIE E. EMGE, Carpentry, Sloyd and Clay Modeling.
 PEARL M. BALDWIN, General Manual.
 INA MATTHEWS, Physical Training.
 MAUD WINN, Voice and Piano.
 F. J. REINEKE, Girls' Orchestra.
 G. J. THOMPSON, Boys' Band.

HEADS OF DEPARTMENTS.

WILLIAM J. SMITH, Supervisor Colony Farm.
 HARRY THOMPSON, Supervisor East Wing Boys' Ward.
 ALICE WILSON, Supervisoress Custodial Cottage for Boys.
 DALE COWDERY, Supervisoress West Wing Girls' Ward.
 ELLA MCCORMICK, Supervisoress Custodial Cottage for Girls.
 BELLA MAC'TAVASH, Supervisoress Cottage for Adult Females.
 LEW DEHAVEN, Chief Engineer.
 FRED L. TILBURY, Woodworking.
 SETH A. ROBERTS, Painting.
 HENRY MEURER, Mattress Making.
 FRED KOENIG, Tailoring.
 N. B. HOLDSWORTH, Shoemaking.
 ANDREW HEINZLEMAN, Bakery.
 C. N. ROBERTSON, Cold Storage.
 JOHN DICKSON, Farm and Dairy.
 MORRIS PULLIN, Gardener.
 FLOYD J. WILKEN, Florist.
 M. Q. CAMPELL, Outside Overseer.
 KATE GORMLEY, Laundry.
 ROSE MURPHY, Dressmaking.
 MINNIE FRANKS, Mending and Comfort.
 MRS. W. J. SMITH, Sewing Room Colony Farm.
 ANNA BROWN, Sewing Room Custodial Cottage for Girls.
 AUGUSTA HOPKINS, Sewing Room Cottage for Adult Females.

REPORT OF BOARD OF TRUSTEES.

TO THE HONORABLE THOMAS R. MARSHALL, *Governor of Indiana:*

Sir—The Board of Trustees of the Indiana School for Feeble-Minded Youth has the honor to submit this, its thirty-third annual, report for the fiscal year ending September 30, 1911, together with a showing of the year's work as reported by the Superintendent, accompanied by various statistical exhibits, showing in detail the operations of the institution for the past year, to which your attention is respectfully called.

On May 6th, the terms of office of Albert P. Sinclair and James W. Sale having expired by limitation, you appointed Mr. George D. Gaby of Albion to succeed Mr. Sinclair, and reappointed Mr. Sale to succeed himself, each for a term of four years from May 6, 1911, and on May 9th the new Board of Trustees met and organized by the selection, of the following officers, to wit:

Rev. Anthony M. Ellering, President.

George D. Gaby, Vice-President.

Mrs. Mary R. Harper, Secretary.

James W. Sale, Treasurer.

The year has passed with perfect harmony and unanimity of action between the members of the board, and co-operation on the part of our worthy superintendent has prevailed throughout the year.

Mr. Albert E. Carroll, who for eighteen years has been closely identified with the executive management of the institution, and who for the past eight years has so successfully managed its affairs, continues as superintendent. His usefulness grows with his years of experience, and his marked ability in choosing loyal and enthusiastic heads of the several departments, maintains a high standard of efficiency and co-operation throughout, that is very commendable.

The population of the institution has gained materially during the year, the completion of the Adult Female Cottage having permitted us to receive a number of women who had been on the waiting list. The present enrollment is 1,225 against 1,143 one year ago, showing a gain of 82 for the fiscal year.

We now have 61 applications accepted, pending room, as against 131 a year ago, the majority of these being for girls under 16 years of age. The department for girls is overcrowded at this time, and we shall only be able to accept girls of school age as vacancies occur by reason of death or removal, until such time as additional facilities are furnished by the State. We will be able to care for all proper applications for boys and adult females that are presented during the coming year.

The operation of the various departments during the year has been very satisfactory. The school under the direction of the principal, Miss Frances Hamilton, has done very satisfactory work.

The Industrial Department has fully supplied the children with clothing, shoes and breadstuffs, and contributed largely to the subsistence from the gardens.

The result of the farming operations is particularly notable, the net profit from the farm being \$4,315.08 for the year, a gain of \$1,002.51 over 1910; while the estimated value of farm and garden products amounts to \$17,260.31. This department is growing in value to the institution each year from a financial standpoint, and at the same time affords a splendid opportunity to keep the able-bodied boys engaged in healthful employment.

The 67th General Assembly made some needed changes in the law governing the admission of inmates, relieving the institution of the care of epileptic children, and providing for a maintenance fee for adult females when able to pay, which has proven advantageous. We have already found a number of cases where inmates have had estates of more or less importance; others where parents were able to contribute wholly or in part to the support of their children, and tuition has been assessed amounting to approximately \$2,500 per annum, with a number of cases yet to be investigated.

The maintenance expenditure per capita for the past year was \$130 (exclusive of repairs) while our tuition and industrial earnings deposited with the State Treasurer amounted to \$5,149.31. Deducting this amount from the total maintenance expense, leaves a net cost per capita of \$125.52, or sixty cents per capita less than 1910.

Of the funds provided for improvements by specific appropriation enacted by the Legislature of 1909, only one remained unexpended at the beginning of the fiscal year, viz., that for a cottage for adult females. This building was fully completed and furnished, ready for occupancy July 1, 1911, within the appropriation of \$60,000. The building is satisfactory in every respect, and

will provide all needed accommodations for the adult female department for some time to come.

The General Assembly of 1911 made the following specific appropriations for the institution: \$24,000 for two one hundred and fifty tubular H. P. boilers, two one hundred and fifty K. W. direct connected dynamos and engines, water softening plant, and reservoir for water supply.

Competitive bids were submitted for the various items named in the appropriations, when it was found that the estimated cost of the water reservoir, upon which the appropriation was based, had been too small, whereupon the board decided to defer the building of the reservoir until some future time, and as a consequence about \$6,500 of this appropriation will revert to the State October 1, 1912. Contracts were let for the remainder of the items in this appropriation, and all the work will be completed about January 1, 1912.

Other specific appropriations made were: Dairy barn, \$5,000; iron fence, \$2,300; brick yard expense and construction of hospital for the sick, \$60,000.

These appropriations will not be available until October 1, 1912.

A complete statement of the regular and specific appropriations made by the General Assembly available during the year, and receipts from tuition and earnings, is as follows:

Maintenance.

Regular appropriation	\$130,000 00	
Excess on 147.925 inmates over 1,000.....	19,229 45	
Expenditures as per Exhibit No. 2.....		\$149,226 90
Reverted to State Treasurer.....		2 55

Repairs and Painting.

Regular appropriation	\$7,500 00	
Expenditures as per Exhibit No. 3.....		\$7,499 87
Reverted to State Treasurer.....		13

Cottage for Adult Females.

Appropriation	\$60,000 00	
Expended in fiscal year ending September 30, 1910	19,286 58	
Balance for fiscal year ending September 30, 1911	\$40,713 42	
Expenditures as per Exhibit No. 4.....		\$40,711 46
Reverted to State Treasurer.....		1 96

Tuition Receipts and Industrial Proceeds and Earnings.

Receipts from tuition accounts.....	\$4,673 73	
Industrial proceeds and earnings.....	475 58	
Deposited with State.....		\$5,149 31

Respectfully submitted,

ANTHONY M. ELLERING,

GEO. D. GABY,

MARY R. HARPER,

JAMES W. SALE,

Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit herewith the Thirty-third Annual Report of the Indiana School for Feeble-Minded Youth, for the fiscal year ending September 30, 1911:

MOVEMENT OF POPULATION.

	Boys.	Girls.	Adult Females.	Total.
Enrolled September 30, 1910.....	517	473	153	1143
Admitted during the fiscal year.....	58	28	58	144
	<hr/>	<hr/>	<hr/>	
Total enrollment	575	501	211	1287
Died during fiscal year.....	14	13	5	32
Discharged during fiscal year.....	7	6	1	14
Withdrawn during fiscal year.....	9	7	0	16
	<hr/>	<hr/>	<hr/>	<hr/>
Total died, discharged and withdrawn	30	26	6	62
Enrolled September 30, 1911.....	545	475	205	1225
Absent September 30, 1911.....	20	6	0	26
	<hr/>	<hr/>	<hr/>	<hr/>
Actual number present Sept. 30, 1911	525	469	205	1199
	Males.	Females.	Total.	
Daily average actually present	516.931	630.994	1147.925	
	Boys.	Girls.	Adult Females.	Total.
Applications presented	87	35	30	152
Applications accepted	76	31	30	137
Applications rejected and deferred.....	11	4	0	15
Applications on file pending room.....	20	33	8	61

The number of cases admitted during the fiscal year was boys 58, girls 28, adult females 58, or a total of 144. The loss by death, withdrawal and discharge was, boys 30, girls 26, adult females 6, or a total of 62, leaving a net gain in our enrollment for the year of 82 inmates. The number of applications and commitments presented was, boys 87, girls 35, adult females 30, total 152. The applications of 11 boys and 4 girls were rejected because of epilepsy and their otherwise helpless condition.

The new building for women of child-bearing age was completed and occupied early in the month of July. Acceptance was issued for all committed cases on the waiting list and most of them are now under the protecting care of the State. There yet remains in the adult department, available room for about 75 cases; if proper care is exercised and only those who belong here under the law are sent to use, we should be able to promptly care for all committed cases for a number of years without further extensions. It seems impossible to prevent the commitment of improper cases to this department; the law governing the class of defectives eligible is very plain, and the rules prepared by the Board of Trustees regulating admissions is even more plain. Notwithstanding this, a large number of women sent to us each year are such cases as should be cared for by some other institution, either State or county.

All of the cottages and other buildings (except the cottage for women) are caring for as large a number of inmates as is safe and wise to house within the space they afford.

DISTRIBUTION OF POPULATION.

	Enrolled.	Beds.
Main building—girls	291	286
Main building—boys	218	224
Custodial Cottage for boys.....	163	159
Cottage, Colony Farm—boys.....	164	154
Cottage for Adult Females	205	275
Custodial Cottage for Girls.....	184	190
	<hr/> 1,225	<hr/> 1,288

The change in our law enacted by the last General Assembly, providing for the support of committed cases by parents when such parents are financially able to contribute to such support, or from the estates of such committed cases themselves, should there be any, will add from \$2,500 to \$3,000 per annum to our earnings account.

Three unfortunate accidents occurred during the year, the first being that of the case of Frank Parker, inmate No. 1976, who was reported as having strayed from Colony Farm on January 13, 1911, and whose body was found in the St. Joseph River directly back of the Colony Farm buildings on Friday, March 10, 1911, at about 9 o'clock a. m. The finding was reported by two men who were going up the river in a boat. They reported their discovery to Mr.

Smith at Colony Farm, who went to the river at once and made an examination of the body and found it to be that of the boy as stated above. The coroner was called and after holding an inquest, returned the verdict of accidental drowning.

At the time this boy strayed the river was covered with ice, but it had become soft and broken up in places. It is my opinion that in leaving the institution premises, the boy attempted crossing the river and broke through the ice, and was unable to save himself. At the time of his disappearance the premises were thoroughly searched. The searchers found tracks, supposedly those of the Parker boy, through the camp woods and up towards the Oaklawn woods, but there all trace was lost and nothing further was heard of his whereabouts until the finding of the body on March 10, 1911. After the coroner's inquest, the remains were buried in the institution cemetery on March 11th.

The other was the accidental drowning in the St. Joseph River of inmates Otto Lehman and Wesley Hoppes while in swimming with about twenty other boys, May 27, 1911. A report of the accident was sent to the secretary of the Board of State Charities as follows:

"I have to report the death of two of our boys by accidental drowning on May 27, 1911, at or about 5:30 o'clock p. m. Inmates No. 1077, Otto Lehman; No. 2123, Wesley Hoppes, and about thirty other boys, under the direction of two attendants, were picnicking along the river at Colony Farm. Shortly after supper the two boys mentioned above and about twenty of their companions, together with their attendants, went in swimming. The boys had been cautioned not to venture into any water that had not first been explored by the attendants. While the attendants were sounding for deep water, the two boys came splashing past them and were in deep water before they could be reached. The attendants made every effort to reach and rescue the boys, but were unable to do so. The coroner was called, and after viewing the bodies and examining witnesses, rendered a verdict of accidental drowning as the cause of death.

"I was at the scene of the accident a very few minutes after it happened and from my own investigations am satisfied the attendants did everything in their power to safeguard the boys while in swimming, and that they made every effort to rescue the boys when they found them in trouble.

"The boys at the farm and the children from the institution picnicking at the camp grounds have used the river at or near this particular point for the past several years and it has always been considered safe. However, the boys have never been permitted to use the river for swimming unless accompanied by one or more attendants or employes."

SCHOOL DEPARTMENT.

The number of children attending school remains about the same each year. Our teaching staff is composed of women who are earnest, conscientious and thoroughly alive to the great responsibility devolving upon them, in the training and instruction, not only of those who form their daily classes, but of all those who are a part of our home. The Children's Library is fast becoming one of the most potent factors for good the institution has ever known. A few volumes are added each year; we could use many more, but because of a lack of funds for this purpose our library must of necessity grow slowly.

Miss Frances Hamilton, for several years connected with the public schools of Fort Wayne, was appointed principal of our schools on January 1, 1911.

Your attention is respectfully directed to the report of the principal for further information covering the operations of the school department.

MEDICAL DEPARTMENT.

The general health of the children has been good. The report of our resident physician furnishes a history of the hospital department for the past year, to which report your attention is respectfully directed.

Dr. T. L. Taylor of Indianapolis entered the service as resident physician on January 1, 1911. Dr. Charles G. Beall, who had been acting physician in charge during the absence of a resident physician, was made chief consultant of the medical staff. Dr. Nellie Hanaway, serving as medical interne, was promoted to assistant physician July 1, 1911.

INDUSTRIES.

All of the industries, with the exception of the brickyard, have contributed to the employment and training of the children as in years past, and the work accomplished by the various departments has done much to lessen the cost of our institution to the State. A summary of the work and product of the various departments is appended hereto and will give some idea of their usefulness and helpfulness.

RELIGIOUS SERVICES

Chapel service is held each Sabbath in the main chapel hall and all of the cottages. The services are planned to meet the needs of the various grades and degrees of intellect.

RECREATION AND AMUSEMENT.

All of the holidays and special days are celebrated with appropriate ceremonies. The weekly dances and entertainments have been kept up. We are adding to the playground equipment each year and leaving nothing undone that would add to healthful and helpful amusement.

MAINTENANCE.

The maintenance appropriation for the past fiscal year was \$130,000, based upon an actual attendance of 1,000 inmates, with an excess allowance of \$130 per capita per annum for each inmate actually present over that number. The excess maintenance for the fiscal year was \$19,229.43, making our total maintenance allowance for the year \$149,229.43. The expenditures for all purposes, excluding repairs and improvements, were \$149,226.90.

The maintenance appropriation for the next biennial period is \$145,990 per annum, for 1,123 inmates, with an excess allowance of \$130 for all actually present over that number.

GENERAL REPAIRS.

All urgent repairs are being kept up; the buildings and equipment are getting old and the demand for repairs grow greater each year. Several of the floors and much of the plumbing will have to be replaced the coming year.

SPECIFIC APPROPRIATIONS.

The cottage for adult females was the only specific appropriation available the past year. This improvement was completed and occupied July 1st. The arrangement and construction of this building is one of the most satisfactory improvements on the grounds.

OTHER APPROPRIATIONS.

The last General Assembly appropriated funds for buildings and equipment, available as follows:

Boilers, engines, etc. (available October 1, 1911)	\$24,000
Hospital building	60,000
Dairy barn	5,000
Iron fence (available October 1, 1912)	2,300

The appropriation for boilers, engines, etc., included two 150 k. w. direct connected dynamos and engines, two 150 horsepower high pressure boilers, one water softening plant and reservoir for water supply. There being urgent need for the engines, dynamos, boilers and water softening plant, contracts were awarded and work begun on same before the close of the fiscal year and we hope to have all in full operation before winter sets in. The other appropriations not being available until a year from this time, very little can be done, except the securing of plans. Arrangements should be made, however, for the manufacture of brick for the hospital and dairy barn so as to prevent delay when these funds are available for use.

SPECIAL MENTION.

Miss Nora Griffin, who had been connected with the institution in various capacities for twenty-three years and serving as matron the past five years, resigned on May 31, 1911, to live at home. Miss Griffin was a conscientious and loyal officer and possessed many qualities fitting her for the duties of the office she creditably filled.

Mrs. A. M. Wheaton was appointed matron to succeed Miss Griffin and assumed the duties of the office June 1, 1911.

IN CONCLUSION.

It is a pleasure to again mention the loyalty and helpfulness of all those who are laboring with me in this great cause; each employe, regardless of rank, is equally entitled to credit for whatever of success we have achieved.

I desire to thank your honorable board for the deep interest manifested in the affairs of the institution, and for your confidence and co-operation at all times.

Respectfully submitted,

ALBERT E. CARROLL,
Superintendent.

SEPTEMBER 30, 1911.

REPORT OF SCHOOL PRINCIPAL.

To the Superintendent:

The majority of mentally deficient children will spend their lives under custodial care or at best fill the humblest positions in the world. Their education should be to this end and the teacher can accomplish most when teaching them as individuals, not as classes.

In reaching the minds of our defective children our first difficulty lies in finding out how little they comprehend and through which one of their senses they can be helped. If the eye, the forms of objects and of words are shown and named. Words are called pictures with names, the same picture always having the same name. If the ear, the sounds of letters and building of words may reach them. If by touch, objects may be handled as they say the word, or see it written, but objects must be discarded as soon as possible.

An interest must be created in the child and the teacher be ready with devices, and all work must be given in a forceful way.

In our trial class, an experienced teacher tests the child to learn how he can be best reached and in what grade he will be best able to progress.

The child who stammers or whose articulation is indistinct, remains in the trial class for special training. The kindergarten work has been especially helpful to these defective children and has been given to some extent to all primary pupils and is a source of great pleasure as well as a means of instruction.

A well-equipped gymnasium has added to the health and happiness of all the school children, and a well-selected library is freely used by a large number of boys and girls. The smaller children, also some of the duller children, gather in the reading room for the "story period," a period that creates in many a desire to read. This work has been done under the direction of a teacher unusually well adapted for her duty.

We need more books, not only for the library, but for supplementary reading in the schoolrooms.

The nature study in our schools is planned to create interest in the common trees, birds, weeds, fruits and flowers about us, never

technical, but concrete and objective. From the most common wayside flower the pupil will learn, unknowingly, lessons of generosity, obedience and protection.

The work is adapted to season and made practical to writing, drawing, reading and number work.

Especially well done is the work of the art class, and while it has given skill to a few, it has given pleasure to many and added greatly to schoolrooms already homelike with sunshine and plants and flowers.

Music receives great attention, and voice culture, piano, orchestra and band lend their refining influence to all. The manual training work has given a measure of skill to many hands.

If the year's work has given happiness to the children and will aid them in their simple duties through life, there has much been attained.

Respectfully submitted,

FRANCES HAMILTON,
Principal.

REPORT OF RESIDENT PHYSICIAN.

To the Superintendent:

I submit herewith the report of the medical department of the Indiana School for Feeble-Minded Youth, for the fiscal year ending September 30, 1911:

The general health of the children has been good, and with few exceptions their physical condition is above the average for children maintained in similar institutions. We have had two epidemics, the first and most severe being that of diphtheria. There were twenty severe cases, with only one death, and this one was complicated with pneumonia. The manner of treating individual cases and preventive measures used to stop the spread of the epidemic, were as follows: A suspect from any division was isolated immediately; a swab taken from tonsils and examined under the microscope; at the same time a culture was grown. If clinical symptoms were at all characteristic of diphtheria, a dose of antitoxin was given at once. If the culture proved positive and the clinical symptoms continued, we had a better control of the case. If the culture and clinical symptoms were negative, the antitoxin had done no harm to the patient. The size of dose of antitoxin was given according to age of patient, and severity of clinical symptoms.

Preventive Measures.—The division from which the suspect came was quarantined for ten days, and if the case proved positive, each child in the division was given an immunizing dose of antitoxin. At the end of the ten days, if there were no symptoms of infection, the quarantine was raised. None of the children given immunizing doses had diphtheria.

The second was an epidemic of pneumonia. There were eight cases among the low-grade boys, with only one death, and this case was complicated with pulmonary tuberculosis. All the children have been inoculated with typhoid vaccine. We have had four cases of typhoid fever. Two cases occurred before the inoculations, and two after. There were no deaths. All children received into the institution are inoculated immediately upon admittance. The manner of administering the typhoid vaccine was as follows: Two inoculations were given each inmate, ten days elapsing between first and second inoculations. For individuals of average weight of 150 pounds, we gave for first dose, $\frac{1}{2}$ c. c. of vaccine, which contained 500,000,000 dead bacteria. The second dose was 1 c. c. and

contained 1,000,000,000 dead bacteria. To the smaller children, we gave to some, $\frac{1}{3}$ c. c. for first dose, and $\frac{2}{3}$ c. c. for second dose. To others, $\frac{1}{4}$ c. c. for first dose, and $\frac{2}{4}$ or $\frac{1}{2}$ c. c. for second dose, according to weight of individual. Strict aseptic precautions were observed during entire procedure. The place of inoculation was the middle of outer side of arm. A small spot was cleansed with soap and water, a new needle which had been placed in boiling water, was used for each injection of vaccine. There were about 1,200 cases, making about 2,400 inoculations, with no infection of the arms. There was a slight local reaction in each case, but no systemic disturbance of any consequence. The typhoid vaccine used was furnished gratis by Parke, Davis & Co. All the children are to be kept under observation for two years and reports made from time to time.

During the year there were 980 admittances to the hospital. Of that number, 526 were girls, and 454 boys. We treated 5,802 dispensary cases, of that number 3,731 were girls, and 2,071 boys, making a total of 6,782 cases treated at the hospital.

Dr. Earl Robbins was appointed dental surgeon, and his work was very satisfactory. Dr. Robbins was with us only two months, and in that time could not do all the work that should have been done.

We are indebted to Dr. Joseph F. Morrow, and Dr. C. Langdon of Indianapolis, for the "Wasserman" test made on 86 of the children. These tests showed syphilitic reaction in 37 per cent. of the cases. Many other children are undoubtedly syphilitic. A great many from history of cases show an alcoholic heredity. A small per cent. of feeble-mindedness is caused by sickness, but the large majority of cases are caused by heredity and dissipation.

We have done all in our power to keep the children in a state of good health, thereby adding something to their happiness, but should we not look back to the cause of such conditions and try in some way to remedy this one great defect in the human race, and in our commonwealth!

Below is a list of the more important medical and surgical cases treated, together with the mortality record.

In behalf of myself and those connected with the hospital, I wish to thank you for the hearty co-operation and confidence you have given us.

Respectfully submitted,

T. L. TAYLOR,
Resident Physician.

SURGICAL CASES.

Pelvic abscess	1
Sprained knee	1
Thyroid cyst	1
Infected hand	2
Inguinal cyst	1
Hematoma of elbow	1
Tonsillectomy	22
Lacerated lip	1
Fracture of clavicle	1
Appendectomy	2
Colle's fracture	1
Herniotomy	3
Fracture of ulnar	1
Fracture of lower jaw	1
Fracture of metacarpal bone	3
Sprained ankle	9
Sprained hip	3
Ingrown toe nails	2

MEDICAL CASES TREATED.

Follicular tonsilitis	31
Iritis	9
Torticollis	1
Tonsil or abscess	11
Catarrhal tonsilitis	22
Epilepsy	27
Diphtheria	27
Pulmonary tuberculosis	10
Varicella	5
Lobar pneumonia	21
Broncho pneumonia	2
Acute articular rheumatism	4
Infected scalp	2
Prolapsed rectum	3
Furunculosis	1
Acute indigestion	5
Vincent's angina	1
Mitral regurgitation (broken compensation)	1
Vaginitis	1
Ulcerative keratitis	7
Erysipelas	3
Typhoid fever	4
Muscular rheumatism	1
Diabetes mellitus	1
Dementia præcox	1
Indolent ulcer	1
Catalepsy	1
Parotitis	10

Measles	3
Scabies	3
Tubercular adenitis	2
Enterocolitis	S
Asthma	1
Chronic trachoma	1
Stomatitis (gangrenous)	2
Acute nephritis	1
Epileptic insanity	2
Urticaria	4
Blepharitis	1
Impetigo	1
Heat exhaustion	1

MORTALITY RECORD.

Number.	NAME.	Age.	Date of Death.	Cause of Death.	Grade of Child.
1	Minnie M. Strayer.....	45	Nov. 17, 1910	Status epilepticus.....	Low grade.
2	George Nice.....	32	Dec. 8, 1910	Erysipelas.....	Low grade.
3	Anna Wilk.....	21	Dec. 9, 1910	Pulmonary tuberculosis.....	Middle grade.
4	Harry Behagg.....	9	Dec. 11, 1910	Diphtheria laryngitis.....	Low grade.
5	Alvin Davis.....	23	Dec. 12, 1910	Hypostatic pneumonia.....	Low grade epileptic.
6	Margaret Stephenson.....	32	Dec. 12, 1910	Malnutrition—Tuberculosis.....	Middle grade.
7	Isabella Hock.....	11	Dec. 13, 1910	Organic heart disease.....	Middle grade.
8	Ella Volkman.....	13	Dec. 16, 1910	Pulmonary tuberculosis.....	Middle grade.
9	Clara K. Daiber.....	15	Dec. 29, 1910	Broncho pneumonia.....	Low grade.
10	Thomas R. Crist.....	12	Dec. 29, 1910	Laryngeal diphtheria.....	Low grade.
11	Pearl M. Preber.....	27	Dec. 31, 1910	Multilobular ovarian cyst.....	Low grade.
12	Frank Parker.....	20	Jan. 13, 1911	Drowned (accidental) in St. Joseph River.....	Middle Grade.
13	Rachel Moore.....	29	Feb. 10, 1911	Diabetes mellitus.....	Low grade.
14	Ralph McDaniel.....	29	Feb. 22, 1911	Status epilepticus.....	Low grade epileptic.
15	Laura Keesling.....	41	Mar. 7, 1911	Pellagra (—).....	Low grade.
16	Ora Ball.....	14	April 2, 1911	Status epilepticus.....	Middle grade epileptic.
17	Oliver Stutzman.....	37	April 28, 1911	Status epilepticus.....	Middle grade epileptic.
18	Warren Layne.....	16	May 25, 1911	Broncho pneumonia.....	Low grade.
19	Wesley Hoppes.....	18	May 27, 1911	Accidental drowning—in St. Joseph River.....	High grade.
20	Otto Lehman.....	22	May 27, 1911	Accidental drowning—in St. Joseph River.....	Middle grade.
21	Helen Connelly.....	16	May 30, 1911	Organic heart disease.....	High grade.
22	Alma Brosius.....	16	June 4, 1911	Broncho pneumonia.....	High grade.
23	Reed Warren.....	39	June 19, 1911	Fibroid phthisis asthma.....	Middle grade.
24	Viola Ahlring.....	22	July 7, 1911	Status lymphaticus.....	Low grade.
25	Nellie Murphy.....	21	July 11, 1911	Sunstroke.....	Low grade.
26	Anna Gwinup.....	48	July 30, 1911	Concussion of brain.....	Middle grade epileptic.
27	Burney Gray.....	8	Aug. 23, 1911	Tubercular enteritis.....	Low grade.
28	Bridget Hennigan.....	39	Sept. 4, 1911	Chronic tubercular meningitis.....	Low grade.
29	Chas. Beik.....	31	Sept. 4, 1911	Lobar pneumonia.....	Low grade.
30	Arthur Blocher.....	30	Sept. 10, 1911	Lobar pneumonia.....	Low grade.
31	Anna Fischer.....	20	Sept. 24, 1911	Status epilepticus.....	Low grade epileptic.
32	Castella Roe.....	41	Sept. 29, 1911	Status epilepticus.....	Middle grade epileptic.

LAW GOVERNING ADMISSIONS TO THE INDIANA SCHOOL FOR FEEBLE-MINDED YOUTH.

(H. 489. Approved March 4, 1911.)

SCHOOL FOR FEEBLE-MINDED — ADMISSION OF INMATES.

Section 1. Be it enacted by the General Assembly of the State of Indiana, That hereafter there shall be received into the Indiana School for Feeble-Minded Youth, subject to such rules and regulations as the board of trustees of said institution may adopt, feeble-minded or idiotic children between the ages of six and sixteen years; and feeble-minded women between the ages of sixteen and forty-five years, who are not pregnant or helpless, and who are not afflicted with any contagious or communicable disease.

APPLICATION—HOW MADE.

Sec. 2. Application for the admission of a child between the ages of six and sixteen years shall be made to the board of trustees of said school with the approval of the board of county commissioners of the county wherein such child has a legal settlement, and in the following manner: First, by the father, if the father and mother are living together; second, if the father and mother are not living together, then by the one having custody of the child; third, by a guardian duly appointed; fourth, by the superintendent of any county poor asylum, or by the person having the management of any orphanage or other institution where children are cared for. Under items 3 and 4, consent of parents, if living, is not required. In the case of adult females between the ages of 16 and 45 years, any person may file in the office of the clerk of the circuit court of any county, his certified petition stating that some woman (naming her) of said county is not being or cannot be properly maintained or cared for by those who have her in charge. That such woman is a feeble-minded woman; that she is over sixteen (16) and under forty-five (45) years of age; that she is not insane; that she is not pregnant; that she is idiotic or feeble-minded; that she is in good bodily health; that she is not helpless; that she is not afflicted with any chronic or contagious disease; that she is a menace to society; that she is a legal resident

of the State and county where the application is filed; together with such other statements as may be necessary to show that she is a proper person to be admitted to said department of said institution, and that her admission thereto would be in conformity to the rules and regulations established by the board of trustees of said institution for the admission and care of such person.

ADULT WOMEN—METHOD FOR ADMISSION.

Sec. 3. Hereafter, no adult woman shall be admitted into the Indiana School for Feeble-Minded Youth unless committed thereto by the circuit court of the county in which such person has a legal settlement. Upon the filing of an application or a petition in the office of the clerk of the circuit court of the county in which such applicant has a legal settlement, by the proper person, as designated in Section 2 of this act, the clerk of said court shall issue a summons to such person named in said application or petition, requiring her to be and appear before said court, or the judge thereof, at some time to be fixed by said clerk, not more than ten days thereafter, and shall bring said matter at once to the attention of the judge of said court. That the judge of said court shall, as soon as convenient, pass upon said application or petition, first having ascertained that said person has been served with notice of the filing thereof, and that she is present in court, or that, having had reasonable notice, she is unable to attend the hearing of said matter; and that it shall be the duty of said court to examine such witnesses (among whom shall be at least one physician) as may be necessary to prove the truth or falsity of the statements in said application or petition. And if the court finds that each and all of the allegations contained in said application or petition are true, and that said person is a proper person to be cared for in said institution, it shall be its duty to make an order committing the care and custody of said person to said institution. And it shall be the duty of the clerk of said court to make a certified copy of said application or petition, and of the finding and judgment of said court, and transmit the same, together with a statement of such facts as can be ascertained concerning the personal and family history of such person, to the superintendent of said institution, at Fort Wayne, Indiana. The costs of said proceedings shall be allowed and paid by the board of county commissioners of said county.

SUPERINTENDENT—DUTIES AS TO ADMISSION—CLOTHING.

Sec. 4. Upon receiving such order of commitment it shall be the duty of the superintendent of said institution, at once, if there is room for any more inmates, or as soon thereafter as there shall be room for such person in said institution, to notify the clerk of said court that such person will be received in said institution. That with said notice, said superintendent shall send a list of such clothing as shall be prescribed by the board of trustees of said institution, and a blank form of certificate of health and freedom of exposure to contagious disease at such time. In case the parent or custodian of such person shall be financially unable to furnish the clothing as required, the said clerk shall procure such clothing at a cost not to exceed twenty dollars (\$20) and the payment for the same shall be made out of the county treasury upon the certificate of the clerk and order of the county auditor.

CONVEYING INMATES—EXPENSE.

Sec. 5. Upon receiving notice that such person can be admitted to such institution, the clerk shall order the parent, custodian or applicant to convey such person to said institution without expense to the institution or the county. In case such parent, custodian or applicant is wholly and financially unable to bear such expense, said clerk shall issue a warrant to the sheriff, who shall convey said person to said institution in the same manner and in accordance with the same forms as are now provided by law for the transfer of patients to insane hospitals, so far as they are applicable: *Provided*, That no woman shall be conveyed to said institution by the sheriff except she be in the care of or accompanied by a woman.

JUDGE OF CIRCUIT COURT—DUTIES.

Sec. 6. The judge of the circuit court in approving an application or petition for the admission of an adult female between the ages of 16 and 45 years for commitment to the institution, shall ascertain whether or not such person has an estate of sufficient value, or parent or parents of sufficient ability to defray the expense, in whole or in part, of supporting such adult female in said institution. The judge of the circuit court shall require from the parent, guardian or legal custodian of such adult female, affidavits giving in detail, the value of all real estate and personal property owned by either parent or held in trust by guardian or other person, for such adult female.

TRUSTEES—DUTIES—MAINTENANCE FEE.

Sec. 7. The board of trustees of said institution, in accepting the commitment for the admission of any adult female as an inmate of said institution, shall fix the amount, if any, which shall be paid for the support of such person named in the commitment, according to the ability of the parents or parent of such person, or according to the value of such committed person's estate, if any, and shall require payment for such support, so far as there may be ability to pay, as a condition to the admission or retention of said person: *Provided*, The amount charged shall not exceed \$150 per annum, which amount shall be payable to the superintendent of said institution, quarterly in advance. Said amount may at any time be changed by said board of trustees, according to their information concerning said means of support. Immediately upon the taking effect of the provisions of this act, the board of trustees shall require the parents or guardians of all committed adult women now in the said institution to file with said board, a sworn financial statement in the manner and form as provided in Section 6 of this act. Upon the receipt of such affidavit, it shall be the duty of said board to fix the amount, if any, that shall be paid for the support of such person, under the provisions of this act.

CHILDREN—CONVEYING AND CLOTHING.

Sec. 8. In case the parents of a child between the ages of six and sixteen years are wholly unable to bear the expense of furnishing the clothing required by the rules of the board of trustees of said school, or of furnishing the money for the transportation of such child to said school, it shall be the duty of the county from which the child is sent to bear such cost, in the manner provided for adult females in Sections 4 and 5 of this act.

REPEAL.

Sec. 9. All laws or parts of laws in conflict with the provisions of this act are hereby repealed.

EMERGENCY.

Sec. 10. Whereas, an emergency exists for the immediate taking effect of this act, it shall be in full force from and after its passage.

Thirty-Fourth Annual Report

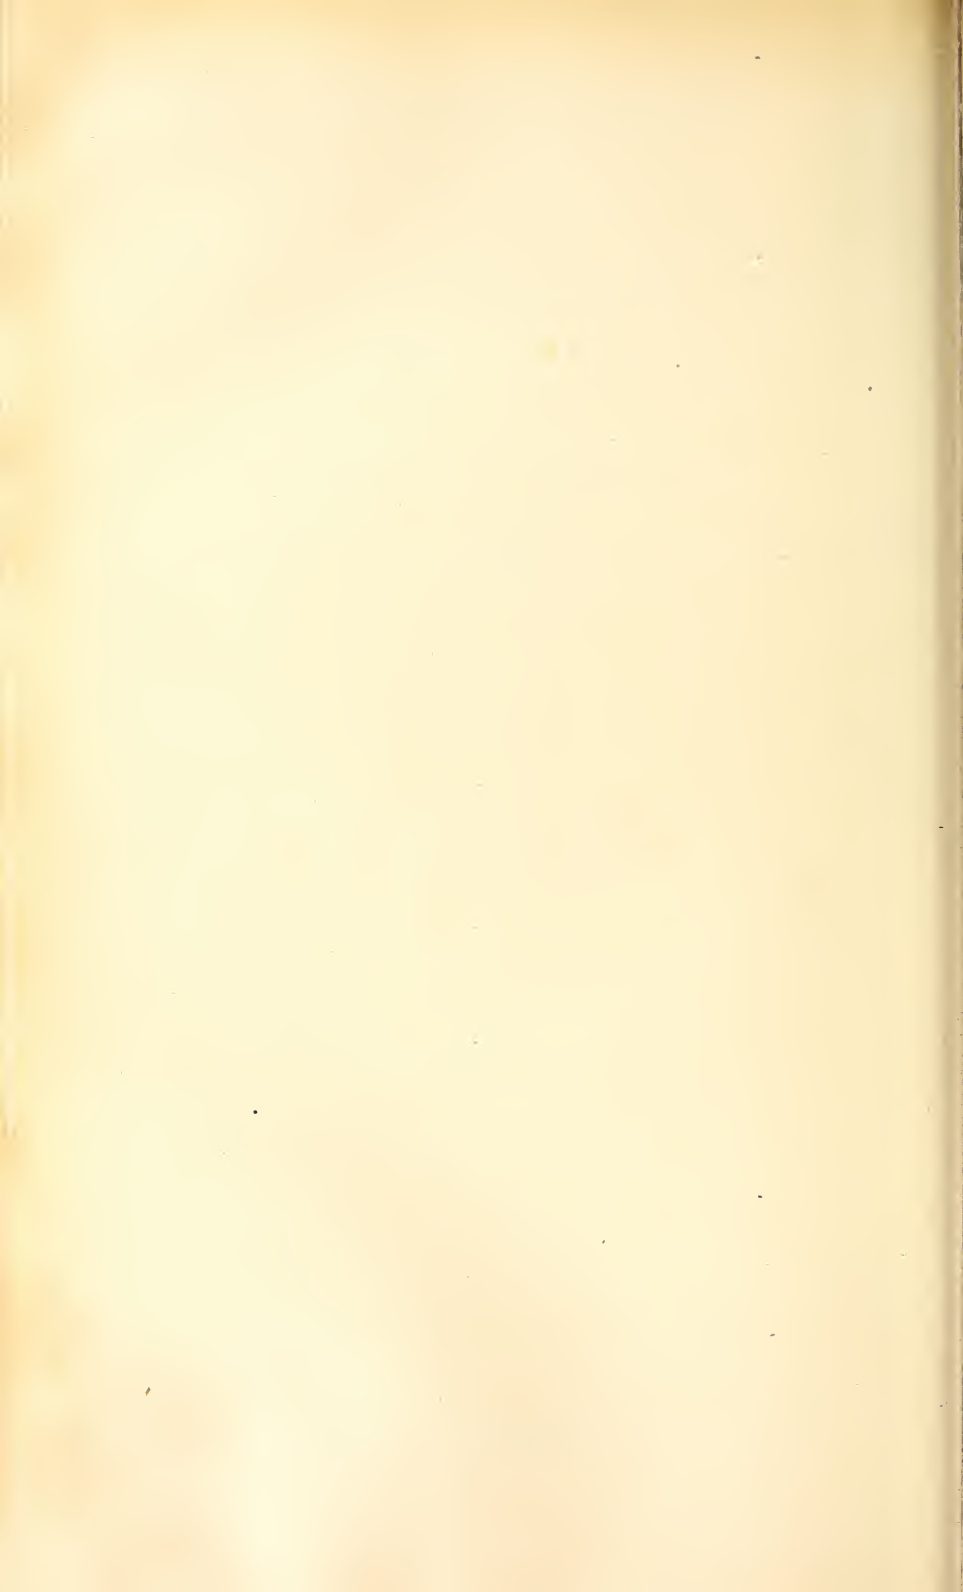

OF THE

Indiana School
For Feeble-Minded Youth
FORT WAYNE, INDIANA

For the Fiscal Year Ending
September 30, 1912

To the Governor

INDIANAPOLIS :
WM. B. BURFORD, CONTRACTOR FOR STATE PRINTING AND BINDING
1913

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
January 4, 1913.

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

OFFICE OF AUDITOR OF STATE,
INDIANAPOLIS, January 4, 1913.

 ANNA BROWN, Sewing Room Custodial Cottage for Girls.
 AUGUSTA HOPKINS, Sewing Room Cottage for Adult Females (New).
 LOTTIE KOST, Sewing Room Cottage for Adult Females (Old).

REPORT OF BOARD OF TRUSTEES.

To the Honorable Thomas R. Marshall, Governor of Indiana:

Sir—The Board of Trustees for the Indiana School for Feeble-Minded Youth have the honor to present herewith its thirty-fourth annual report, together with a detailed report by the superintendent and various statistics covering the operations of the institution for the fiscal year ending September 30, 1912.

The personnel of the board remains the same as at our report one year ago and consists of Rev. Anthony M. Ellering, President; George D. Gaby, Vice-President; Mrs. Mary R. Harper, Secretary, and James W. Sale, Treasurer.

After nineteen years of faithful and devoted service to the State in this institution, Albert E. Carroll, Superintendent, died on August 27th, in the midst of his duties and after a short illness of but nine days. He had so endeared himself to his associates and was so universally loved and respected by the children, that his demise was a great shock to all.

After several weeks of careful investigation, the board unanimously selected Dr. George S. Bliss, present Superintendent of the State Institution for Feeble-Minded of Maine, to succeed Mr. Carroll. Dr. Bliss will take charge of the institution December 1st. We are expecting great things of Dr. Bliss, as he brings with him ten years of ripe experience in the care of the feeble-minded in the States of Massachusetts and Maine.

During the year, 106 new inmates were admitted to the institution, 43 died, 18 were discharged and 21 were withdrawn, leaving a net increase in the population of 24 persons. Our enrollment at the close of the year was 1,249, with 1,223 actually present. Applications that have been accepted but not yet admitted, are 16 boys, 39 girls and 5 adult females. Of these none of the girls can be accepted except as vacancies occur by death or withdrawals. All of the girls' departments are full, and no relief can be expected until more room is provided. There is room for a few boys of certain grades, but it will all be taken before the close of another year.

The new Custodial Cottage for Women completed in 1911, with a capacity of 120 beds will be entirely filled during the coming year. There are more than 500 of this unfortunate class of child-bearing age to be found in the county infirmaries and jails of the State, without any watchful care or oversight, a constant menace to so-

ciety, and costly charges to their communities. The time is near at hand when the State must recognize this direful condition and provide ample facilities, where they can be cared for economically, and properly segregated from society. In this connection we deem it proper that we should look into the future, in view of the certainty that after another year we shall be compelled to refuse all applications for admission or commitment by the courts for lack of room.

The board has carefully studied the situation, and after mature deliberation, reach this conclusion: First. We have in the institution more than 259 epileptics who should be separated from the purely feeble-minded. The establishment of the Epileptic Village at Newcastle has not relieved us of this class, as we expected, no transfers having been made up to this time. If the coming Legislature will provide for additional room both for boys and girls in that institution, so that we may be permitted to transfer a number of able-bodied boys and girls (particularly the latter), who can contribute largely to their support, we would be able to take care of applications, as soon as buildings could be completed there. Second. If requests made by us to the coming General Assembly are granted for appropriations to complete our new hospital, provision for which was partly made by the sixty-seventh session of the General Assembly, we shall be able with a moderate outlay to convert the old hospital into a small cottage which will care for 30 or 40 girls. Third. For further needs, after the above provisions are made, we believe that a separate institution should be established for the care of feeble-minded adult women, of sufficient capacity to care both for those now in our custody and those who are now under detention in the county houses, and that we should be relieved of this department entirely. This arrangement would give us, with our present buildings, a capacity for about 1,300 purely feeble-minded children, which with about 200 employes, would give us a population of about 1,500 persons; as many as one superintendent can care for properly.

In other words, we do not believe that any more buildings should be erected at this institution to enlarge its capacity. With the measures of relief outlined above, we should doubtless be able to take care of the purely feeble-minded children of the State for the next ten years.

We are particularly pleased with the result of our farm operations during the past year. The profits show a creditable increase each year. With the increase of our land area a few years ago,

this has become a very important and profitable feature of our Industrial work, and it is our opinion that the State will do well to allow us to purchase additional farming land in the near future.

The last General Assembly passed an act enabling us to charge tuition for the care of adult females where the parents or guardians are able to pay. We found that a number of women in our care had estates in their own right; others whose parents are able to pay for support of their children. Reference to the statistical report of tuition and earnings herewith will show the wisdom of the act. The total collections for tuition during the past year amount to \$6,888.33, a gain over the previous year of \$2,214.60. Our earnings also show a gain of almost 200 per cent., amounting to \$1,418.13 for the year.

The value of the farm and garden products for the past year amount to \$25,811.70, a gain over the preceding year of \$1,993.66, and the net result of the farm and garden operations show a net profit of \$11,518.95.

The maintenance appropriation for the present biennial period fixed by the last Legislature at \$130 per capita for the actual number present, proved inadequate for the past year, and we were forced to draw upon your Emergency Fund for \$4,420.14, to close the year. This is easily accounted for by the fact that foodstuffs of every sort were higher than ever before. It will be imperative not only that the coming Legislature provide a larger per capita Maintenance Fund for the next biennial period, but that we shall have a specific appropriation of \$10,000 for the remaining year of the present biennial period, available immediately upon its passage.

Our buildings are growing older each year, and more extensive repairs are needed than in the past. Our present repair fund under the general appropriations is \$8,500. For the next biennial period we should have at least \$10,000 for repairs and painting.

Your attention is respectfully directed to our biennial report to the Legislative Visiting Committee, a copy of which has been furnished you, for the needs of the institution for the next biennial period.

Respectfully submitted,

A. M. ELLERING,
GEO. D. GABY,
MARY R. HARPER,
JAMES W. SALE,

Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit herewith the Thirty-fourth Annual Report of the Superintendent of the Indiana School for Feeble-Minded Youth, for the fiscal year ending September 30, 1912:

MOVEMENT OF POPULATION.

Daily average actually present.....	533.933	478.767	212.700	1,225.400
	Boys.	Girls.	Adult Females.	Total.
Applications presented	43	43	32	118
Applications accepted	37	34	31	102
Applications rejected and deferred.....	6	9	1	16
Applications on file pending room.....	16	39	5	60

The number of cases admitted during the fiscal year was boys 46, girls 23, adult females 37, or a total of 106. The loss by death, withdrawal and discharge was boys 36, girls 23, adult females 23, or a total of 82, leaving a net gain in our enrollment for the year of 24 inmates. The number of applications and commitments presented was boys 43, girls 43, adult females 32, total 118. The applications of 6 boys and 9 girls and 1 adult female were rejected because of epilepsy and their otherwise helpless condition.

The new building for women of child-bearing age, completed a year ago last July, is now nearly filled to its capacity, the adult

women having been received as fast as application for proper subjects were completed and acceptance issued. At the present time there are no adult women on the waiting list, though the buildings will probably be filled within the next year. We had hoped to be able to care for all applications for adult females that would come to us within the next two or three years, but cases for this department have been coming in unusually fast.

SCHOOL DEPARTMENT.

The number of children attending school, either morning or afternoon, or receiving direct training from the school department, average about 455. They are promoted from kindergarten and primary grades, through bench-work, clay modeling, basketry, weaving, Sloyd and other branches of manual training, to fine needle-work, art, etc., to as high a grade in school work as is profitable for them. Aside from this, they have opportunity for advancement in vocal or instrumental music. Ordinarily, the fifth grade in school work is as far as any of our children are able to advance.

Miss Frances Hamilton still continues at the head of the school department, and your attention is respectfully directed to her special report giving detailed information concerning her department.

MEDICAL DEPARTMENT.

The health of the children for the past year has been very good, and your attention is directed to the special report of the resident physician. There has been no change in the medical staff during the fiscal year. Dr. Charles G. Beall continued as chief consultant of the medical staff, Dr. Thomas L. Taylor, resident physician and Dr. Nellie Hanaway, assistant physician. Dr. J. E. Walker, dental interne, entered the services of the school July 30, 1912, and is doing the needed dental work among the children. A report of the work done by him from July 30th to September 30th, will be found attached to the resident physician's report.

INDUSTRIES.

All the industrial departments of the institution have continued as usual. Nearly all lines of clothing used by the children in the institution are made in our industrial departments. The brick-yard was in full operation during the summer, and four to five employes with the help of about fifteen boys, made and burned about six hundred thousand good brick, at a cost of about \$3.75 per thousand. Your attention is directed to a report of other industries following:

FARM AND GARDEN.

With favorable weather conditions and diligent work, the productions on the farm and garden were raised from \$23,818.04 in 1911, to \$25,811.70 in 1912. This is a most important part of our industrial growth and development in which more interest is taken as the ground and orchards are developed.

A large dairy barn which would be fireproof and sanitary is still much needed. A sanitary piggery, large enough to house at least 400 hogs, is very much needed.

RELIGIOUS SERVICES.

Chapel services are held in the main chapel hall and in each of the cottages each Sunday morning.

RECREATION AND AMUSEMENT.

Some part of each day, whenever the weather permits, is given to outdoor exercise or amusement. During the school year entertainments are frequently given under the direction of the school department. These alternate with concerts by the boys' band and the girls' orchestra as well as motion picture entertainments.

MAINTENANCE.

The maintenance appropriation for the last fiscal year was \$145,990, based upon 1,123 inmates, with an excess allowance of \$130 per capita for each inmate over that number actually present. This amount proved too small. With the most rigid economy on the part of the management, it was impossible to feed, clothe, house and care for the children on that amount with the increase in the cost of labor and all materials within the last few years.

The per capita cost for officers, teachers, attendants and all employes was \$54.14 per annum. The cost of outdoor departments,

including hospital, school, industrial, furniture, laundry, farm, fuel, insurance, etc., was \$39.25. This left only \$5.98 per capita for clothing, which is nearly all furnished the children by the school, and \$30.60 per capita for food for 1,212 inmates and an average of 180 employes, or about \$2.55 each per month. This is impossible with present prices. Our per capita should be \$140 for the next biennial year, with a special appropriation of \$10,000 to supplement our maintenance for the present year.

GENERAL REPAIRS.

Most urgent repairs to buildings have been taken care of the past year with the appropriation of \$8,500, but our buildings are growing older and greater in number and the repairs for painting, heating and plumbing and power plant increase from year to year. We should have \$10,000 for each biennial period to keep the buildings in good repair.

PERMANENT IMPROVEMENTS.

The following permanent improvements have been installed during the last fiscal year:

Two 72" x 16 ft. horizontal tubular boilers have been placed in the boiler room.
 One 200 K. W. and 1 125 K. W. dynamos, each direct connected, with large Harrisburg engines; 1 automatic type Northern Water Softener.
 The cost of all the above.....\$17,716 47

SPECIAL MENTION.

After the resignation of Mrs. A. M. Wheaton, matron, late in the year, the office of general matron was abolished and the duties assigned to the heads in charge of the several buildings. The institution has grown to such a size that it is impossible for one woman to cover the entire place and properly take care of the work.

Respectfully submitted,

MELVIN DRÜCKEMILLER,

Chief Clerk.

REPORT OF SCHOOL PRINCIPAL.

To the Board of Trustees:

During the past year all grade work has been faithfully carried forward. The kindergartens are as nearly like those for normal children as it is possible to make them. Not only has time been given to develop self-activity and to train the senses, but the children have been taught to respect the rights of others, to be courteous and obedient.

In the high-grade classes, history and geography, have been made especially interesting, and through these studies a desire to read has been created.

In the middle-grade classes, reading and letter writing have received great attention. Nature work has been done as in other years. The children gather weeds and flowers, watch for the bird, listen to his song, and then talk and write of them in their school rooms.

One class of young boys made blue prints of twigs and their winter buds, and later on of the same twigs with their leaves.

We are glad to report decided gain in the manual training department, for this work is of special benefit to the feeble-minded child, for it not only teaches the child by doing, but develops interest. In many cases it reveals a natural ability and awakens ambitions where other studies fail. The boys made tabourets, screens and many smaller objects. The girls did good work with raffia and cut and tooled leather.

As the music in various ways reaches a large number of the children, it is an important feature in the institution. A chorus of younger boys has been started and much work done with divisions heretofore neglected. A greater interest has been awakened and chapel and all general singing shows improvement.

Piano work has been given younger children, and it is giving pleasing results.

In the physical training department, the work has been greatly improved. Swedish gymnastics have been used for general body training. For clubs, bells, wands and all light and heavy apparatus work, Dr. Arnold's Yale system of Americanized German gymnastics is used. The children have gained great pleasure from the

Folk dances and Irish lilt. Several teams of basket ball have been organized, and the boys especially have shown much interest.

Interest in the library is constantly growing, and one of the happiest places in the institution is the boys' reading-room. Here the boys gather five evenings each week and are under the guidance of a teacher especially well fitted for her work. During the week one hundred and twenty of the smaller and of the duller boys enjoy a story period and music. One hundred of the larger and brighter boys spend the evening reading. One hundred and twenty-five girls, aided by the teacher, select books which they read in their sitting-rooms. For this work we have five hundred and fifty books. We need more books, especially for the children who can read only the simplest books. More and better work can be done in this respect for the girls when they can have a reading room.

The girls in the art needle work class not only made beautiful and dainty things, but added to their work buttonholes, linen darning and patching. This work furnishes many girls with pleasure during their leisure hours, hours spent in idleness without this training.

The boys and girls in the drawing classes, except two, were not able to do advanced work, but it has been possible to make them see, feel and express beauty by drawings of the common things around them, as well as new beauty in the ever-changing seasons.

The teachers, without exception, have been faithful workers and have given freely of their best to aid the children in every way.

Respectfully submitted,

FRANCES HAMILTON,

Principal.

REPORT OF RESIDENT PHYSICIAN.

To the Board of Trustees:

I submit herewith the report of the medical department of the Indiana School for Feeble-Minded Youth, for the fiscal year ending September 30, 1912. The general health of the children has been good, and with few exceptions they are now in good physical condition. There has not been a case of typhoid fever during the year. This is due to the fact that all the children have been inoculated with typhoid vaccine. This fact is of particular interest, as heretofore there have been several cases of typhoid each year. Each new case admitted to the institution is inoculated with typhoid vaccine, so that every inmate is now protected against the infection of typhoid fever. The vaccine is furnished gratis by the Parke, Davis Co., of Detroit, Michigan.

We have had two epidemics of diphtheria; in reality hardly enough cases in either instance to call them epidemics. The cases were treated as in such instances before. The suspected case was isolated at once, a swab taken from the throat, a culture grown and examined under the microscope. If the clinical symptoms were at all characteristic of diphtheria, a dose of antitoxin was given at once. If the culture proved positive and symptoms remained, we gave another dose of antitoxin and continued case as symptoms demanded. Preventive measures were as follows :

The division from which the suspected case came was quarantined for ten days. If the suspect proved to be a case of diphtheria, each child in the division was given an immunizing dose of antitoxin. At the end of the ten days, if no new cases developed and there were no symptoms of infection in any of the children, the quarantine was raised. None of the cases given immunizing doses of antitoxin had diphtheria.

During the year there were 986 admittances to the hospital department. Of that number 535 were girls, and 454 were boys. There were 5,766 cases treated at the dispensary, making a total of 6,752 cases treated at the hospital.

Dr. J. E. Walker began his work as dental interne July 30, 1912. Dr. Walker has done excellent work. A dentist is needed

here every day in the year. Not only would much suffering be relieved, but the health of the children would be better.

We are looking forward with great pleasure to see the first dirt turned for our new hospital. The present hospital is very inadequate. We have three small wards, a ward for girls with seventeen beds, a ward for boys containing nineteen beds and a ward for tubercular girls. There is no ward for tubercular boys. There are but three rooms for isolating infectious diseases, and these rooms are on hallways where there is more or less danger of spreading infection. When you consider the number of children in the institution and their susceptibility to infection, you can readily see that we have been working at a disadvantage. The building is poorly ventilated and is not fireproof.

The Noguchi skin test was performed on the children upon whom the "Wasserman" test was made last year, for hereditary syphilis. The test seems to be of value but does not warrant a positive diagnosis.

There were four cases of pellagra, with three deaths. Symptoms noted, stomatitis, loss of appetite, nausea, vomiting, diarrhea with watery stools at times, containing blood, rapid emaciation and muscular tremor. Skin lesions, on nape of neck, back of hands and in some instances inflamed areas were found on back of feet. The parts so affected showed a reddened area, with many bleeding cracked places and covered with scales. The surface of the entire body was dry and harsh. Medical treatment seemed to be of no help except in the patient who recovered. We gave her subcutaneously $\frac{1}{2}$ grain of cocodylate of sodium every other day. Recovery was complete.

Below is a list of medical and surgical cases treated, with the mortality list.

I wish to thank the board for its hearty support and confidence.

Respectfully submitted,

T. L. TAYLOR, M. D.,
Resident Physician.

LAW GOVERNING ADMISSIONS TO THE INDIANA SCHOOL FOR FEEBLE-MINDED YOUTH.

(H. 489. Approved March 4, 1911.)

SCHOOL FOR FEEBLE-MINDED — ADMISSION OF IN- MATES.

Section 1. Be it enacted by the General Assembly of the State of Indiana, That hereafter there shall be received into the Indiana School for Feeble-Minded Youth, subject to such rules and regulations as the board of trustees of said institution may adopt, feeble-minded or idiotic children between the ages of six and sixteen years; and feeble-minded women between the ages of sixteen and forty-five years, who are not pregnant or helpless, and who are not afflicted with any contagious or communicable disease.

APPLICATION—HOW MADE.

Sec. 2. Application for the admission of a child between the ages of six and sixteen years shall be made to the board of trustees of said school with the approval of the board of county commissioners of the county wherein such child has a legal settlement, and in the following manner: First, by the father, if the father and mother are living together; second, if the father and mother are not living together, then by the one having custody of the child; third, by a guardian duly appointed; fourth, by the superintendent of any county poor asylum, or by the person having the management of any orphanage or other institution where children are cared for. Under items 3 and 4, consent of parents, if living, is not required. In the case of adult females between the ages of 16 and 45 years, any person may file in the office of the clerk of the circuit court of any county, his certified petition stating that some woman (naming her) of said county is not being or cannot be properly maintained or cared for by those who have her in charge. That such woman is a feeble-minded woman; that she is over sixteen (16) and under forty-five (45) years of age; that she is not insane; that she is not pregnant; that she is idiotic or feeble-

mind; that she is in good bodily health; that she is not helpless; that she is not afflicted with any chronic or contagious disease; that she is a menace to society; that she is a legal resident of the State and county where the application is filed; together with such other statements as may be necessary to show that she is a proper person to be admitted to said department of said institution, and that her admission thereto would be in conformity to the rules and regulations established by the board of trustees of said institution for the admission and care of such person.

ADULT WOMEN—METHOD FOR ADMISSION.

Sec. 3. Hereafter, no adult woman shall be admitted into the Indiana School for Feeble-Minded Youth unless committed thereto by the circuit court of the county in which such person has a legal settlement. Upon the filing of an application or a petition in the office of the clerk of the circuit court of the county in which such applicant has a legal settlement, by the proper person, as designated in Section 2 of this act, the clerk of said court shall issue a summons to such person named in said application or petition, requiring her to be and appear before said court, or the judge thereof, at some time to be fixed by said clerk, not more than ten days thereafter, and shall bring said matter at once to the attention of the judge of said court. That the judge of said court shall, as soon as convenient, pass upon said application or petition, first having ascertained that said person has been served with notice of the filing thereof, and that she is present in court, or that, having had reasonable notice, she is unable to attend the hearing of said matter; and that it shall be the duty of said court to examine such witnesses (among whom shall be at least one physician) as may be necessary to prove the truth or falsity of the statements in said application or petition. And if the court finds that each and all of the allegations contained in said application or petition are true, and that said person is a proper person to be cared for in said institution, it shall be its duty to make an order committing the care and custody of said person to said institution. And it shall be the duty of the clerk of said court to make a certified copy of said application or petition, and of the finding and judgment of said court, and transmit the same, together with a statement of such facts as can be ascertained concerning the

personal and family history of such person, to the superintendent of said institution, at Fort Wayne, Indiana. The costs of said proceedings shall be allowed and paid by the board of county commissioners of said county.

SUPERINTENDENT—DUTIES AS TO ADMISSION—CLOTHING.

Sec. 4. Upon receiving such order of commitment it shall be the duty of the superintendent of said institution, at once if there is room for any more inmates, or as soon thereafter as there shall be room for such person in said institution, to notify the clerk of said court that such person will be received in said institution. That with said notice, said superintendent shall send a list of such clothing as shall be prescribed by the board of trustees of said institution, and a blank form of certificate of health and freedom of exposure to contagious disease at such time. In case the parent or custodian of such person shall be financially unable to furnish the clothing as required, the said clerk shall procure such clothing at a cost not to exceed twenty dollars (\$20) and the payment for the same shall be made out of the county treasury upon the certificate of the clerk and order of the county auditor.

CONVEYING INMATES—EXPENSE.

Sec. 5. Upon receiving notice that such person can be admitted to such institution, the clerk shall order the parent, custodian or applicant to convey such person to said institution without expense to the institution or the county. In case such parent, custodian or applicant is wholly and financially unable to bear such expense, said clerk shall issue a warrant to the sheriff, who shall convey said person to said institution in the same manner and in accordance with the same forms as are now provided by law for the transfer of patients to insane hospitals, so far as they are applicable: *Provided*, That no woman shall be conveyed to said institution by the sheriff except she be in the care of or accompanied by a woman.

JUDGE OF CIRCUIT COURT—DUTIES.

Sec. 6. The judge of the circuit court in approving an application or petition for the admission of an adult female between the ages of 16 and 45 years for commitment to the insti-

tution, shall ascertain whether or not such person has an estate of sufficient value, or parent or parents of sufficient ability to defray the expense, in whole or in part, of supporting such adult female in said institution. The judge of the circuit court shall require from the parent, guardian or legal custodian of such adult female, affidavits giving in detail, the value of all real estate and personal property owned by either parent or held in trust by guardian or other person, for such adult female.

TRUSTEES—DUTIES—MAINTENANCE FEE.

Sec. 7. The board of trustees of said institution, in accepting the commitment for the admission of any adult female as an inmate of said institution, shall fix the amount, if any, which shall be paid for the support of such person named in the commitment, according to the ability of the parents or parent of such person, or according to the value of such committed person's estate, if any, and shall require payment for such support, so far as there may be ability to pay, as a condition to the admission or retention of said person: *Provided*, The amount charged shall not exceed \$150 per annum, which amount shall be payable to the superintendent of said institution, quarterly in advance. Said amount may at any time be changed by said board of trustees, according to their information concerning said means of support. Immediately upon the taking effect of the provisions of this act, the board of trustees shall require the parents or guardians of all committed adult women now in the said institution to file with said board, a sworn financial statement in the manner and form as provided in Section 6 of this act. Upon the receipt of such affidavit, it shall be the duty of said board to fix the amount, if any, that shall be paid for the support of such person, under the provisions of this act.

CHILDREN—CONVEYING AND CLOTHING.

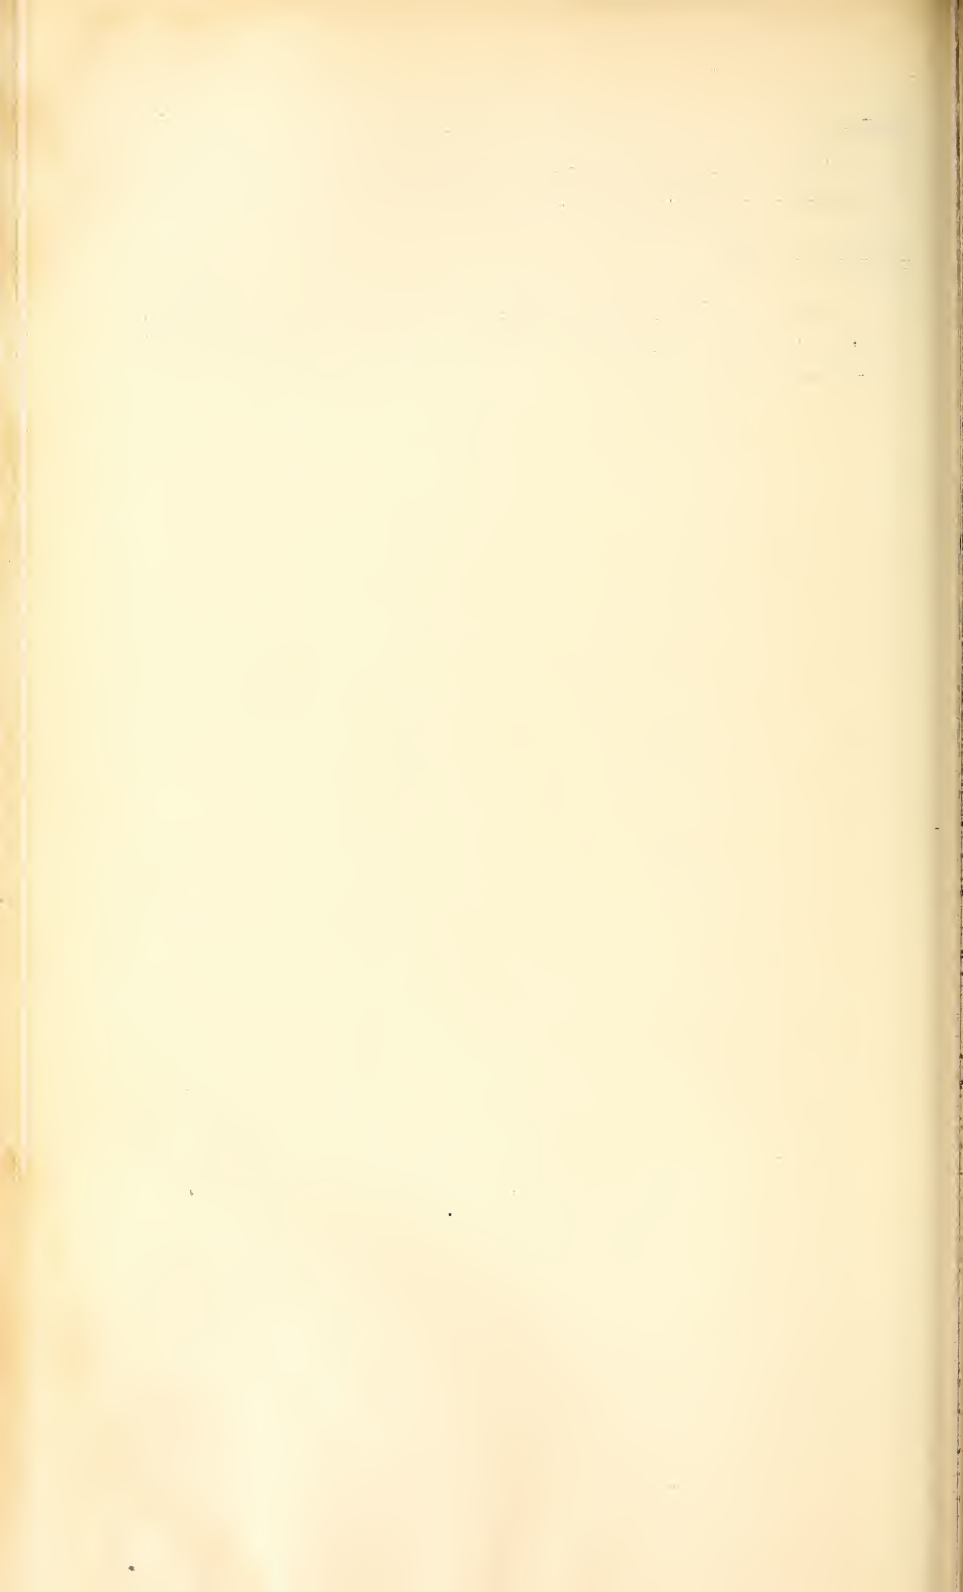

Sec. 8. In case the parents of a child between the ages of six and sixteen years are wholly unable to bear the expense of furnishing the clothing required by the rules of the board of trustees of said school, or of furnishing the money for the transportation of such child to said school, it shall be the duty of the county from which the child is sent to bear such cost, in the manner provided for adult females in Sections 4 and 5 of this act.

REPEAL.

Sec. 9. All laws or parts of laws in conflict with the provisions of this act are hereby repealed.

EMERGENCY.

Sec. 10. Whereas, an emergency exists for the immediate taking effect of this act, it shall be in full force from and after its passage.

Thirty-Fifth Annual Report

OF THE

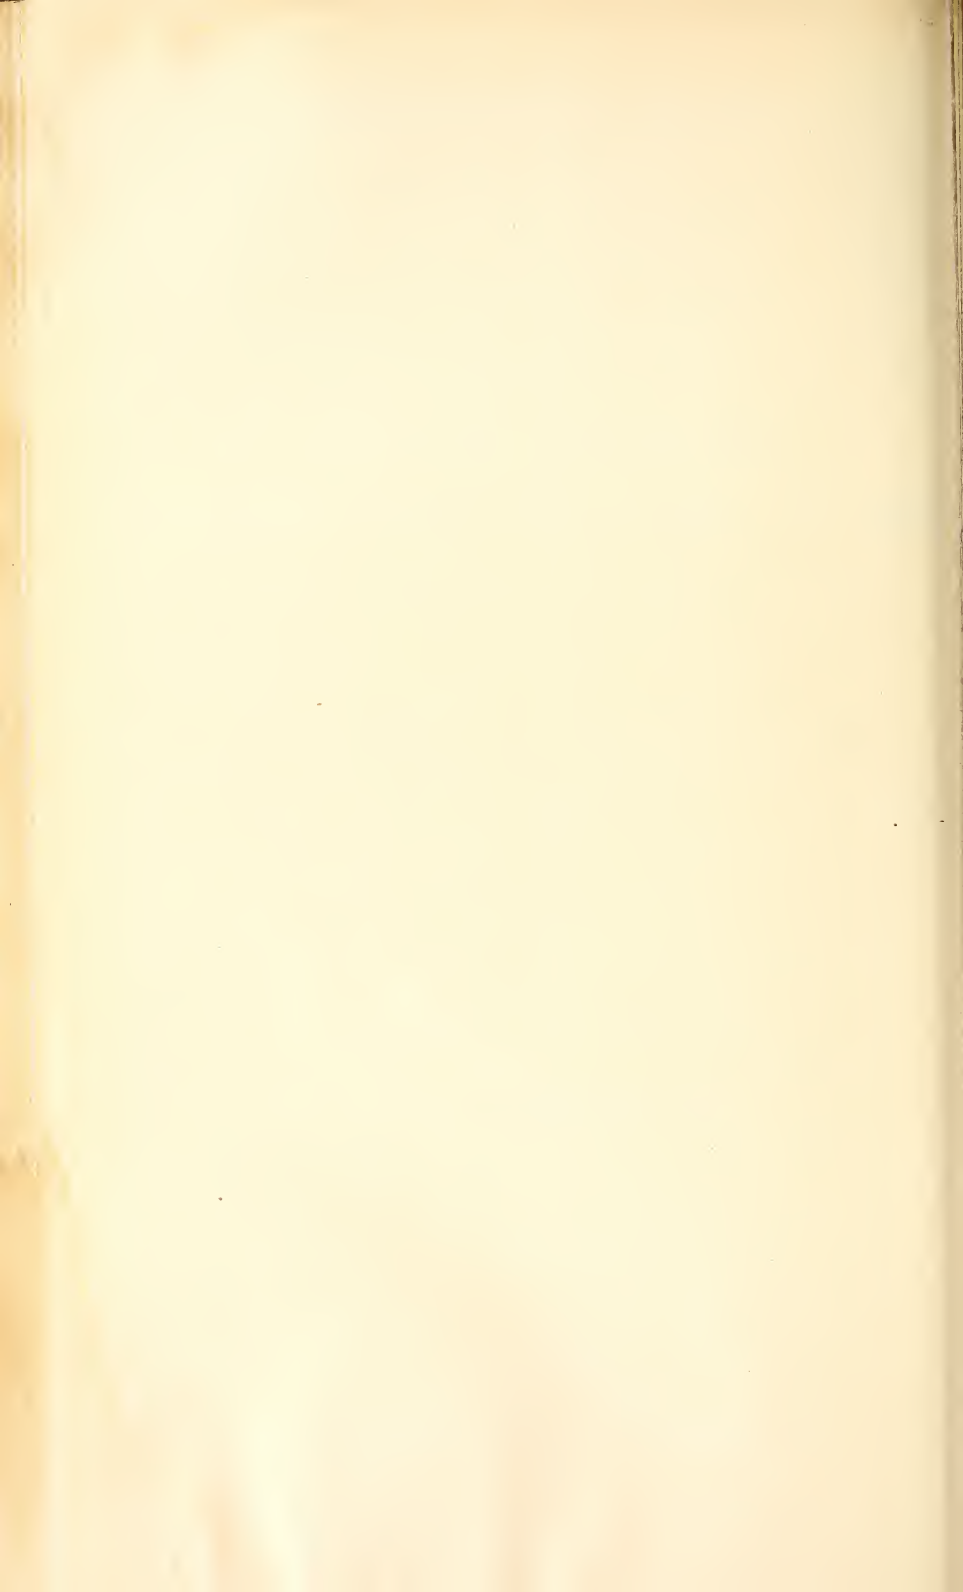

Indiana School for Feeble-Minded Youth

FORT WAYNE, INDIANA

FOR THE FISCAL YEAR ENDING
SEPTEMBER 30, 1913

To the Governor

INDIANAPOLIS :
WM. B. BURFORD, CONTRACTOR FOR STATE PRINTING AND BINDING
1914

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
February 2, 1914.

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

OFFICE OF AUDITOR OF STATE,
INDIANAPOLIS, February 13, 1914.

The within report, so far as the same relates to moneys drawn from the State Treasury, has been examined and found correct.

W. H. O'BRIEN,
Auditor of State.

FEBRUARY 13, 1914.

Returned by the Auditor of State, with above certificate, and transmitted to Secretary of State for publication, upon the order of the Board of Commissioners of Public Printing and Binding.

B. B. JOHNSON,
Secretary to the Governor.

Filed in the office of the Secretary of State of the State of Indiana, February 13, 1914.

L. G. ELLINGHAM,
Secretary of State.

Received the within report and delivered to the printer, February 13, 1914.

ED D. DONNELL,
Clerk Printing Board.

BOARD OF TRUSTEES.

REV. ANTHONY M. ELLERING, President, Michigan City.
GEORGE D. GABY, Vice-President, Ligonier.
JAMES W. SALE, Treasurer, Bluffton.
MRS. MARY R. HARPER, Secretary, Fort Wayne.

OFFICERS.

GEORGE S. BLISS, M. D., Superintendent.

 VESTA EDGERLY, Domestic Science.
 VIRIDIE WATKINS, Cutting and sewing rags and simple rug-making.
 F. J. REINEKE, Girls' Orchestra.
 G. J. THOMPSON, Boys' Band.

HEADS OF DEPARTMENTS.

MRS. MAUDE L. DASCOMB, Housekeeper and Dietitian.
 WILLIAM J. SMITH, Supervisor, Colony Farm.
 HERBERT GRAY, Supervisor East Wing Boys' Ward.
 MRS. ORA MAY, Supervisor Custodial Cottage for Boys.
 EMMA OLDHAM, Supervisor West Wing Girls' Ward.
 ELLA McCORMICK, Supervisor Custodial Cottage for Girls.
 BELLA MAC TAVISH, Supervisor Cottages for Adult Females.
 LEW DEHAVEN, Chief Engineer.
 FRED L. TILBURY, Woodworking.
 SETH A. ROBERTS, Painting.
 HENRY MEURER, Mattress Making.
 FRED KOENIG, Tailoring.
 N. B. HOLDSWORTH, Shoemaking.
 ANDREW HEINZLEMAN, Bakery.
 C. N. ROBERTSON, Cold Storage.
 JOHN DICKSON, Farm and Dairy.
 FLOYD J. WILKENS, Outside Overseer.
 KATE GORMLEY, Laundry.
 ROSE MURPHY, General Sewing Room.
 MRS. BERTHA KUHLMAN, Sewing Room Custodial Cottage for Girls.
 AUGUSTA HOPKINS, Sewing Room Cottage for Adult Females (New).
 LOTTIE KOST, Sewing Room Cottage for Adult Females (Old).

REPORT OF BOARD OF TRUSTEES.

To the Honorable S. M. Ralston, Governor of Indiana:

Sir—The Board of Trustees for the Indiana School for Feeble-Minded Youth has the honor to present herewith its thirty-fifth annual report together with a detailed report by the superintendent, and various statistics covering the operations of the institution for the fiscal year ending September 30, 1913.

No changes have occurred in the personnel of the board during the year.

The commissions of Rev. Anthony M. Ellering and Mrs. Mary R. Harper expired in May and both were reappointed by you, Father Ellering entering upon his second term and Mrs. Harper her fifth.

The organization of the Board for the year was as follows:

Rev. A. M. Ellering, President, Michigan City, 1917.

George D. Gaby, Vice-President, Ligonier, 1915.

Mrs. Mary R. Harper, Secretary, Fort Wayne, 1917.

James W. Sale, Treasurer, Bluffton, 1915.

The work of the year has passed pleasantly and the relations of the board with the superintendent, Dr. George S. Bliss, have been entirely satisfactory.

The various departments of the institution have made commendable progress during the year under the careful supervision of our superintendent, who brought with him to the school the advantage of a ripe experience in the care of feeble-minded children in one of the large eastern institutions, and was thereby enabled to take up the work without a break and to maintain its reputation for high efficiency under former administrations.

Dr. Bliss, in his report appended hereto, mentions new methods and plans that have been put into use in the school and industrial departments that are working out well and promise to be of great benefit to the children.

Your attention is respectfully called to the crowded condition of our school as shown by statistics herewith.

Each department is filled to its capacity, and we are only able to admit new cases in case of death or withdrawal of some already

under our care. We have at this report fifty-two applications that have been accepted but can not be received until room is provided in manner indicated above. The deaths and withdrawals will not average sixty-five per year, so that if no more applicants are offered we can not hope to provide for those already accepted in the next two years.

Under an appropriation granted by the last Legislature, the erection of a new hospital was begun near the close of the fiscal year. We hope to have it completed and ready for occupancy by October 1, 1914. When this building is ready for occupancy, we will be able to use the old hospital (after remodeling) to care for about forty girls, but this relief can not be available before July, 1915, at best. The demand for accommodations seems to be increasing yearly, and it is evident that if the State is to take care of this unfortunate class of our population, provision must be made by the next General Assembly for extensive enlargement of facilities.

One year ago this board recommended the establishment of another and separate institution for the care of feeble-minded adult women only. We have 235 of this class occupying two cottages, and there are as many more now detained in county infirmaries and jails of the State, a constant menace to society and expensive charges on the counties where they are incarcerated. A new institution starting with a capacity for 500 women would not be too large to begin with. If we were relieved of these charges, we would be able to care for all the feeble-minded children offered for years to come. Otherwise we will have to refuse all applications filed for at least two years.

Your attention is directed to the steady increase of income from our farm operations as indicated by the statistical reports herewith. With our large population and the consequent necessity for the maintenance of a large dairy herd, we should have at least 200 acres more of good farm land than we now possess. Our orchards are steadily gaining in their production, and have fully demonstrated the possibilities to the orchardist following scientific and intelligent care of the trees.

We are much indebted to Purdue University for advice and co-operation in the care of our orchard in the past five years. In this period we have been able to increase our fruit production from practically nothing to a commercial value of \$1,823.03 in 1913.

Our tuition earnings collected from parents and guardians of children who are able to pay in whole or in part for their maintenance, amounted to \$7,814.18, for the year, and shows an increase of \$925.85 over 1912, and \$3,140.45 over 1911.

This is accounted for largely by a law passed by the Legislature of 1911 permitting us to charge for the care of adult females under certain conditions. The receipts from this source are not used for maintenance, but are deposited with the State Treasurer and go into the general fund. Under the new law, enacted in 1913, the benevolent institutions of the State will be supported by a specific levy for that purpose, and it seems to us that provision should be made whereby tuition, farm and industrial earnings might be utilized for maintenance or turned back to the fund where it originates.

In conclusion, we wish to thank you for valuable assistance and counsel given us during the year, and to assure you that we will greatly appreciate a visit from you at your convenience.

Respectfully submitted,

ANTHONY M. ELLERING,
GEORGE D. GABY,
MARY R. HARPER,
JAMES W. SALE,
Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit the thirty-fifth annual report of the Indiana School for Feeble-Minded Youth for the year ending September 30, 1913:

SCHOOL DEPARTMENTS.

Our school principal, Miss Frances Hamilton, resigned last June because of ill health and we have secured the services of Miss Edith C. Bell, a young lady of splendid training and eight years of experience in teaching, a part of which she served as a high school principal. We hope for very fine progress this year under her direction.

During the past year we have had 534 children, and 189 have received industrial training.

Last spring we began to teach our girls to make rag rugs, woven, hooked or drawn, and braided. In learning to cut, sew, wind and braid the carpet rags, many of our girls get a preliminary training for the advanced sewing and embroidery that is invaluable, and would be difficult without this introductory step. We use for this work material that has heretofore been sold as waste products, and we hope to eventually make enough of these rugs to partly or wholly supply the needs of the institution.

We have increased the number of boys taking sloyd manual training from 14 to 65, besides several classes of smaller boys taking paper cutting, cardboard work and mensuration, in preparation for future work with tools.

We are now equipping a room in the school building for Domestic Science that our girls may be trained in correct methods of housekeeping, waiting table, cooking, etc. I thoroughly believe that the most important training we can give the defective is along industrial lines. We can not expect the defective to recover, and our object should be to so train him that he may be as useful as may be in the institution where his defect will keep him for the most part of his life. For this training we are badly in need of a training building with large well-lighted rooms. Nearly all of our present industrial classes are located in poorly lighted and ventilated basement rooms, and part of them are not in the school building at all. Besides, we need for this work a number of training rooms for classes that we can not now start because of lack of room.

INDUSTRIES.

All of our industries are very valuable to the institution, not alone for the very necessary products, but even more for the occupation and training they afford our inmates.

Our greatest industry, the colony farm, has suffered greatly this year from a bad season in northern Indiana, reducing our

crops of oats, potatoes and some vegetables to about one-fourth of a normal crop.

In addition to this, we suffered this spring from a severe epidemic of hog cholera that, in spite of prompt vaccination of our hogs with cholera serum, destroyed a hundred and fifty promising hogs and young pigs. All of our hogs and pigs are now immune, and we vaccinate every pig born as soon as he is large enough. In this way we hope to maintain an immune herd and avoid any future trouble.

Our orchard is in excellent shape and yielded an abundant crop of apples.

At the brickyard we have made about 600,000 brick the past summer. These, with nearly 500,000 made last year, will build our new hospital for the sick. These brick cost us about \$3.75 per thousand.

The other industrial departments, shoemaking, bakery, tailoring, mattress making, carpentry, painting, sewing, dressmaking, laundry and domestic departments are all valuable to the institution, and fine training schools for our children.

I believe that every defective child, no matter how low in the scale of intelligence he may be, can be taught something and be improved thereby.

RECREATION AND AMUSEMENT

Recreation and amusement is a most valuable part of the care and training of the defective and we have endeavored during the past year to maintain a high standard in this respect. The playgrounds have been greatly improved by the addition of giant strides, and sandboxes, and I believe a great step forward was made when we employed one of our teachers to supervise our playgrounds this summer. The regular organized play and games not only helped to the best of care and amusement for our children, but organized play is as truly educational as regular school work. I sincerely hope we may continue this work another summer. For amusements, our entertainments by teachers and pupils, by the band, orchestra, and moving pictures have been especially satisfactory.

LIBRARY.

One of our most profitable indoor amusements is our library and system of supervision of the reading of both our boys and

girls. One of our teachers has charge of this, and not only selects reading adapted to the intelligence of the child, but sees that the child is orderly and careful in the use of the books and magazines.

RELIGIOUS SERVICES.

A chapel exercise of a nonsectarian character is held every Sunday not only at the main building but also at the cottages, Harper Lodge and the Farm. This consists of songs and bible verses by the divisions, Bible reading and a talk by one of the teachers on the Sunday school lesson for the day.

MEDICAL REPORT.

The past year has been marked by two light epidemics, one of small-pox and one of measles. We were in quarantine for several weeks during the small-pox epidemic, and though we had 38 cases there were no deaths and only a few very sick. The sick ones were mostly attendants who had never been vaccinated. These epidemics demonstrated very clearly how badly we need our new hospital.

A detailed report of the medical and surgical cases treated, dental work done, and the mortality record will be found at the close of my report.

This institution is now full to its capacity and new cases can only be admitted on death, discharge or withdrawal of some inmate already here. We have 52 applications on the waiting list and 44 under consideration by the board. The problem of the care of the feeble-minded in Indiana is an enormous one, and should be met by the people of the State on a much larger and more extensive plan than at present.

This institution is only caring for about one-fourth of the defectives who should be in institutions at the present time, and the four thousand not cared for now, are producing every year more defectives to add to the burden.

What may we do to stop this? I believe that several large farms located at convenient places in the State, and equipped to provide for the adult defectives, maintaining this institution as a training school for those farms, would be the best, cheapest and most practical solution of the difficulty.

On such a farm I would build on the cottage plan, small inexpensive dormitories, and here, with reasonable amount of supervision, adult defective men could be properly cared for and made

happy as possible. This plan, with a smaller farm, could be applied to women also, and in such a place, apart from men and the outside world, defective adult women could be taught to raise hens and chickens, turkeys, small fruits and garden vegetables. In this way what little work these defectives are capable of, could be turned to the best possible account; they could be restrained from breeding and the number of defectives in the State be greatly diminished.

I want to thank the Board for their cordial support during the past year in the responsible position to which you called me; also to extend thanks to the officers, teachers and employes of the school for their loyalty and faithful work in the care of these unfortunates. I can only hope our future relations may continue as cordial and pleasant as they have proven to be this year.

Faithfully yours,

GEORGE S. BLISS,
Superintendent.

Thirty-Sixth Annual Report

OF THE

Indiana School for Feeble-Minded Youth FORT WAYNE, INDIANA

For the Fiscal Year Ending
September 30, 1914

To the Governor

INDIANAPOLIS:
WM. B. BURFORD, CONTRACTOR FOR STATE PRINTING AND BINDING
1915

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
February 11, 1915.

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

OFFICE OF AUDITOR OF STATE.
INDIANAPOLIS, February 11, 1915.

The within report, so far as the same relates to moneys drawn from the State Treasury, has been examined and found correct.

DALE J. CRITTENBERGER,
Auditor of State.

FEBRUARY 13, 1915.

Returned by the Auditor of State, with above certificate, and transmitted to Secretary of State for publication, upon the order of the Board of Commissioners of Public Printing and Binding.

B. B. JOHNSON,
Secretary to the Governor.

Filed in the office of the Secretary of State of the State of Indiana, February 13, 1915.

HOMER L. COOK,
Secretary of State.

Received the within report and delivered to the printer March 29, 1915.

ED D. DONNELL,
Clerk Printing Board.

BOARD OF TRUSTEES.

REV. ANTHONY M. ELLERING, President, Michigan City.
JAMES W. SALE, Vice-President, Bluffton.
EDWARD M. WILSON, Treasurer, Fort Wayne.
MRS. MARY R. HARPER, Secretary, Fort Wayne.

OFFICERS.

GEORGE S. BLISS, M. D., Superintendent.

MEDICAL DEPARTMENT.

THOMAS L. TAYLOR, M. D., Resident Physician.
NELLIE HANAWAY, M. D., Assistant Physician.
L. B. SCHRADER, D. D. S., Dental Interne.

MEDICAL CONSULTING STAFF.

Surgery.

MILES F. PORTER, A. M., M. D.

Internal Medicine.

CHARLES G. BEALL, M. D.

Eye, Ear, Nose and Throat.

KENT K. WHEELOCK, M. D.

ACCOUNTING DEPARTMENT.

MELVIN DRUCKEMILLER, Chief Clerk.
MARGARET TOWNSEND, Secretary.
JESSIE LINDSAY, Stenographer and Bookkeeper.
GILBERT DENDINGER, Night Clerk.
ZOE STEWART, Record Clerk.
CAREY WEATHERHOLT, Storekeeper.
NELLIE CHRISTLE, Telephone Operator.

SCHOOL DEPARTMENT.

EDITH C. BELL, Principal.
GRACE THOMPSON, Grammar and Library.
MILDRED MELTON, Receiving School and Library.
MARJORIE SMITH, Kindergarten.
MRS. MARTHA B. KIMBLE, Primary.
GRACE GLICK, Primary.
MRS. NELLIE B. PENCE, Grammar and Intermediate.

MINNIE L. PIERSON, Primary and Intermediate.
 MARIE WINTERMOTE, Drawing.
 LYDIA L. HOGE, Sewing and Embroidery.
 MARIE E. EMGE, Manual Training.
 MRS. MARGARET HULL, Primary Manual and Industrial (including
 basketry, weaving, crocheting, knitting, and rug-making).
 EDITH MILLER, Physical Training.
 ALICE MUSSELMAN, Music (Piano and Voice).
 JENNIE MOORE, Music (Violin and Orchestra).
 SARAH HESKIN, Domestic Science.
 VIRDIE WATKINS, Cutting and sewing rags and simple rug-making.
 F. J. REINEKE, Girls' Orchestra.
 G. J. THOMPSON, Boys' Band.
 CHARLES WORKMAN, Primary Industrial Training.

HEADS OF DEPARTMENTS.

MRS. FRANCES HILDRETH, Matron.
 WILLIAM J. SMITH, Supervisor, Colony Farm.
 HERBERT GRAY, Supervisor East Wing Boys' Ward.
 MRS. ORA MAY, Supervisor Custodial Cottage for Boys.
 EMMA OLDHAM, Supervisor West Wing Girls' Ward.
 MRS. BERTHA KUHLMAN, Supervisor Custodial Cottage for Girls.
 BELLE MACTAVISH, Supervisor Cottage for Adult Females.
 LEW DEHAVEN, Chief Engineer.
 FRED L. TILBURY, Woodworking.
 JOHN DICKSON, Farm and Dairy.
 FLOYD J. WILKENS, Outside Oversecr.
 KATE GORMLEY, Laundry.
 ROSE MURPHY, General Sewing Room.

REPORT OF BOARD OF TRUSTEES.

To The Honorable Samuel M. Ralston, Governor of Indiana:

Sir—The Board of Trustees of the Indiana School for Feeble-Minded Youth respectfully presents for your consideration its thirty-sixth annual report for the fiscal year ending September 30, 1914, together with the report of the superintendent, including statistical exhibits showing the financial operations of the institution during this period.

Since submitting our last report there has been one change in the personnel of our board. On May 6, 1914, Mr. George D. Gaby, of Ligonier, resigned as trustee to accept the position of postmaster in his home city, and Mr. Edward M. Wilson of Fort Wayne was appointed by you as his successor.

The board reorganized at the regular meeting of May, 1914, with the following officers, which have continued throughout the year: Rev. Anthony M. Ellering, president; James W. Sale, vice-president; Mrs. Mary R. Harper, secretary, and Edward M. Wilson, treasurer.

Under the careful guidance of the superintendent, together with the able corps of assistants, who have loyally co-operated with him, the institution has made progress along lines that is gratifying to the board. Because of the crowded condition during the past several years there is but a slight increase in the population and actual attendance since submitting our last report. Only by death or withdrawal have we been able to receive new inmates. Applications for the admission in the various departments are presented monthly but can only be accepted pending room. Many of these applications are extremely urgent, and it is with regret that your board finds it impossible to receive the applicants without delay. At the beginning of this fiscal year we had a total population in all departments of 1,276 inmates, and on September 30, 1914, 1,305 inmates. The fullest capacity of the institution was utilized, and yet on September 30, 1914, we had 77 applications completed and accepted pending room and 72 additional applications uncompleted, making a total of 149 children seeking admission. The most important question that confronts your board at this time is whether it should urge a large increase in the capacity of this

institution through the erection of additional buildings or should recommend a detachment of one or more departments into a new and separate institution. From an economical standpoint there can be no doubt that additional capacity should be provided at this institution rather than the establishment of a new and separate institution. The board, however, will not ask for additional buildings of the next General Assembly, although realizing that this question must be determined in the near future.

The health of the inmates has been uniformly good throughout the year, and we have had no serious epidemic, the death rate being two and nine-tenths per cent. which is slightly under the average for the last two years. More attention has been given to the Industrial, Manual and Physical Training Departments during the year past, and the total enrollment has reached 957 in these departments.

All permanent improvements for which the last General Assembly granted specific appropriations have been completed with exceptions of the new hospital building, the power transmission line and that part of the steam heating conduit from the new hospital to the Harper Lodge building. These completed improvements include the construction of the public sewer on Forest avenue from Parnell avenue to the Maumee River east of the city limits; telephone system; the installation of fire escape on school building, and guards for laundry extractors; resetting of five boilers in power plant; the installation of an automatic vacuum trap and condenser in the power plant; the completion of steam heating conduit from central heating plant to new hospital building; the new hospital building except completion of plumbing and equipment of building. All these improvements were completed within the amounts appropriated by the Legislature. Following are the expenditures from the various funds, both regular and specific, for the fiscal year ending September 30, 1914:

Maintenance fund	\$176,918 95
Repair and painting fund.....	9,999 47
Assessment on public sewer fund.....	2,479 59
Telephone system and power transmission fund.....	1,051 15
Fire escapes and machine guards fund.....	396 00
Resetting boilers fund.....	1,500 00
Automatic vacuum trap and condenser fund.....	873 93
Tunnel from central heating plant to adult female cottages fund	4,172 93
New hospital building fund.....	80,000 00
New hospital equipment fund.....	4,862 00
Total	\$282,254 02

REQUIREMENTS.

REGULAR.

Maintenance—The institution will require for the next biennial period \$140.00 per capita per annum—the same amount that was appropriated for the past biennial period. In order to maintain the proper standard of living with this amount for maintenance, the strictest economy must be observed because of the marked advance in the cost of all foodstuffs.

Repairs and Painting—Because of their age our buildings require constant repairs and renewing of roofs, plumbing, and floors as well as painting of interior and exterior wood-work, and for this purpose we shall require \$10,000.00 per annum—the same as was appropriated for the past biennial period.

SPECIFIC APPROPRIATIONS.

Completion of Cold Storage Plant—With the growth of the institution we have found the need of increased cold storage capacity. Our present cold storage building, with a little additional expense for completing three uninsulated rooms, can be made to meet our requirements for refrigeration and cold storage. For this purpose we shall require an appropriation of \$3,000.00.

Piggery at Colony Farm—The production of pork is one of the most important operations of our Colony Farm. To obtain the best results in the breeding and care of hogs, it is essential that they have sanitary shelter and feeding floors. For this purpose we shall require \$4,500.00.

Remodeling Old Hospital Building—As soon as we can occupy the new hospital building during the early part of the coming year, the old hospital building should at once be made available for dormitory purposes for additional inmates. This building is of such construction and size that it can be remodeled to accommodate fifty or sixty inmates. This should be done at the earliest possible date to enable the board to receive a number of children, whose applications have been accepted pending room. For this purpose we shall require \$8,000.00.

Completion of Dairy Barn and Erection of Two Silos—Under the appropriation granted by the last General Assembly we were enabled to build a dairy barn, with a capacity for forty milch cows, and two feed storage rooms, and one 16x40 tile silo with a capacity of two hundred tons ensilage. As we have an average of eighty milch cows in our dairy herd, the present dairy barn

accommodates but half of the herd, and the silo furnishes less than half the ensilage required for our dairy herd and young stock during the winter feeding period.

For the purpose of extending the barn to accommodate eighty cows and construction of two additional silos, we shall require \$6,000.00.

Cement Walks to New Hospital—The construction of the new hospital building on the rear section of our home grounds makes necessary the continuation of cement walks to this building. For this purpose we shall require \$500.00.

Power Sewing Machines—Our institution makes all clothing used by its inmates. There is only a limited number of our inmates who are able to treadle the sewing machines day after day. In order to relieve the physical strain of operating the foot power sewing machines as well as to facilitate the manufacture of our clothing and bedding, we believe that motor driven machines should be installed. For this purpose we shall require \$1,000.00.

In concluding this report we wish to commend the unfailing efforts of the superintendent and his efficient organization of employes and to acknowledge and thank you for the encouragement and interest you have so generously shown our institution.

Respectfully submitted,

ANTHONY M. ELLERING,
JAMES W. SALE,
MARY R. HARPER,
EDWARD M. WILSON,

Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit the thirty-sixth annual report of the Indiana School for Feeble-Minded Youth for the year ending September 30, 1914:

MOVEMENT OF POPULATION.

SCHOOL DEPARTMENT.

I am glad to report a splendid progress in our schools this year under the direction of Miss Bell. This is especially true of the industrial work. We have had 201 children taking industrial work the past year, exclusive of the boys and girls working in the shops, sewing-rooms, etc. Our domestic science department has been most successful, giving our older and brighter girls training that fits them for the needs of the institution in the dining-rooms, kitchens, laundry and in general housework. Our rug making, knitting, and crocheting classes have become very popular, and the only reason we cannot greatly increase the amount of training along these lines is because we have not the room in which to carry on this work. Our only facilities in class rooms for this training are several very poorly lighted basement rooms, which are inadequate as to size and with no ventilation except doors and windows. We could easily double the number of children taking industrial training had we a suitably equipped building. This, I feel, we ought to ask the coming Legislature for, and since industrial training is now advocated as such a necessary thing for normal children in the public schools, how much more is it true of the defective, whose sole opportunity for usefulness lies in what he can do with his hands.

FARM AND GARDEN.

Our industries have prospered this year more than last. Our farm has produced some splendid crops, and we have been free from sickness among our cattle and hogs. Our herd of hogs has not gotten back to the quota we had before our disastrous outbreak of cholera last year, but we are protecting all our hogs by vaccination, in which we seem to have been very successful, as we have had no sick hogs or pigs for eighteen months.

INDUSTRIES.

We did not work our brickyard this year, as we made enough bricks in the last two years to provide for all our buildings and still have 200,000 bricks on hand.

Our shoemaking department has provided all the shoes; our tailoring department, all the boys' clothing; our sewing department, all the girls' clothing, besides the other needs of the institution. We have made our own mattresses; besides the valuable

help the boys give in the carpenter shop, paint shop, and the girls, in the laundry, dining-rooms and kitchens.

Besides this regular work, we did all the excavating and grading for our new hospital building, and hauled all the brick used in constructing it from our brickyard to the school, a distance of a mile and a half.

RECREATION AND AMUSEMENT.

Believing that "all work and no play makes Jack a dull boy," we have continued our entertainments by the teachers and pupils; monthly concerts by our boys' band and girls' orchestra; moving picture shows, and an occasional entertainment by outside talent.

Our boys' band is in great demand through the summer for picnics, etc., in and around the city, and this has proven a great stimulus for good work by the boys. Our organized play on the playgrounds has been productive not only of amusement and profitable pleasure to the children, but is also a valuable training as well, helping greatly to make the children happy, and their care and training easier.

LIBRARY.

Our well organized library for boys has been extended this year to the girls, and will prove a most profitable and helpful way for our girls not otherwise employed to spend the evenings.

The children are taught to select reading fitted to their understanding and to be careful of the books, papers, and magazines entrusted to their care.

RELIGIOUS SERVICES.

A chapel service or Sunday school, nonsectarian in character, is held every Sunday at the main building and also at the cottages and farm. This service consists of songs and bible verses by the children with a short talk from one of the teachers about the International Sunday School Lesson for the day.

MEDICAL REPORT.

The past year has been free from any serious epidemic. Several cases of diphtheria and two deaths from that disease have been the worst. Both cases of death from diphtheria were contracted while on the way to the institution. A detailed report will be found at the close of my report.

IN GENERAL.

Indiana is a State well known for her most liberal provision for suffering and needy humanity; and in many cases is not only abreast of the world in her provision for the poor unfortunates but in some branches of charitable work is far ahead of most of the other States; thus, the insane are so well provided for that it is estimated that there are only about 600 insane in Indiana not in the five state hospitals, and many of these 600 are provided for in the county infirmaries, jails, etc.

This condition of affairs does not exist with respect to the feeble-minded. There are, at the most conservative estimate that can be made, at least four thousand feeble-minded in Indiana needing institutional care today, besides the one thousand three hundred now receiving it at this institution. These people are at large, a nuisance to the community in which they live; nearly all of them paupers; many of them petty criminals; the women filling the houses of prostitution; all of them poor, improvident, lazy—in short, incompetents. These people are increasing rapidly, and unless cared for will, in the next hundred years, bring an unbearable burden on our grandchildren and great-grandchildren. Shall we leave them such an inheritance, or shall we do something now to stop it? Were we to put all these four thousand defectives now at large into institutional care today, this institution could provide for practically all needing the care of an institution at the end of the next fifty years. No provision is made for adult male feeble-minded in this State, and these men should be segregated from the world in some place where they could be made in a measure self-supporting. This can be done on a large farm, and I suggest that this Board earnestly recommend to the coming Legislature, as the wisest and least expensive way of meeting this great need, that a large farm be purchased and provision be made for this very needy and menacing part of our population.

In conclusion, permit me to thank you for another year of cordial support and the marked attitude of the Board to do the best thing for the unfortunate charges committed to our care.

Very faithfully yours,

GEORGE S. BLISS, M. D.

Superintendent.

HERBERT GRAY, Supervisor East Wing Boys' Ward.

MRS. ORA MAY, Supervisor Custodial Cottage for Boys.

EMMA OLDHAM, Supervisor West Wing Girls' Ward.

MARGARET BRADSHAW, Supervisor Custodial Cottage for Girls.

LALLA HOPKINS, Supervisor Cottage for Adult Females.

LEW DEHAVEN, Chief Engineer.

FRED L. TILBURY, Woodworking.

CHASE R. FURNAS, Farm and Dairy.

FLOYD J. WILKINS, Outside Overseer.

MRS. LILLIE TAYLOR, Laundry.

ROSE MURPHY, General Sewing Room.

REPORT OF BOARD OF TRUSTEES

To The Honorable Samuel M. Ralston, Governor of Indiana:

Sir:—The Board of Trustees of the Indiana School for Feeble-Minded Youth respectfully submits herewith its thirty-seventh annual report for the fiscal year ending September 30, 1915, together with the detail report of the Superintendent showing the various operations of all the departments of the Institution.

Since our last report there has been no change in the personnel or organization of your Board of Trustees, which remains as follows:

Rev. Anthony M. Ellering, Pres., Michigan City.

James W. Sale, Vice-Pres., Bluffton.

Mrs. Mary R. Harper, Sec'y., Fort Wayne.

Edward M. Wilson, Treas., Fort Wayne.

There has been but one noteworthy change in the administration. On April 1, 1915, the resignation of Mr. John Dickson as farm superintendent was accepted and Mr. Chase R. Furnas, a Purdue graduate, was appointed to that position. The Institution in its various departments has made substantial progress during the past year. The growth in population and actual attendance has been steady, following closely to that shown in our last report as the Institution is crowded to its utmost capacity, and all we can hope to do is to receive new inmates upon the withdrawal or death of old ones. During the coming year we shall have room for fifty to sixty additional inmates in the remodelled old Hospital Building, and this will enable us to reduce our large list of accepted applications pending room.

At the beginning of this fiscal year the enrollment in all departments was 1305 inmates and at the close of the present year was 1312. While we have had a large waiting list of accepted applications, we have been able to receive only a limited number of inmates during the year as the entire capacity of the Institution has been utilized at all times. There are on file at this time 106 applications accepted, pending room.

There has been no serious epidemic during the past year and the general health of the children has been remarkably good. The death rate has been but 2.4% as against 2.9% during the previous year.

All permanent improvements for which specific appropriations were available have been satisfactorily completed. These improvements include the completion of a telephone system and power transmission line to our Colony Farm, situated one and one-half miles north of the main Institution. This transmission line permits us to utilize electricity from our own power plant for lighting buildings, grinding of feed, and pumping water, also telephone and watchman clock service with various departments at the Colony Farm.

The extension of the conduit heating system from the new Hospital Building to Cottages for Adult Females, which completes a steam heating, hot and cold water, line from main power plant to the Custodial Cottage for girls, new Hospital Building and Cottages for Adult Females, was finished.

The new Hospital Building was completed and equipped ready for occupancy in August. The appropriation for the furnishings of this building enabled us to equip the Hospital with modern apparatus sufficient for our needs. As soon as the new Hospital Building was ready for occupancy, all the patients in the old hospital building were transferred. This enlargement of our Hospital facilities enabled us also to remove from other departments a number of children whose physical condition requires more careful nursing.

Although prices on food stuffs and supplies have remained unusually high during all the year, we have been able through the strictest economy to maintain our Institution on a high standard in all departments without exceeding our fixed appropriations.

Following are the expenditures from the various funds, both regular and specific for the fiscal year ending September 30, 1915:

Maintenance fund	\$179,152 51
Repairs and painting fund	10,000 00
Telephone system and power transmission line fund	748 72
Tunnel from central heating plant to adult female cottages fund.	2,326 99
New hospital equipment fund	15,135 53
Total	\$207,363 75

We respectfully call your attention to the detailed report of the Superintendent showing the statistical operations of the various departments.

Respectfully submitted,

A. M. ELLERING
JAMES W. SALE,
MARY R. HARPER,
EDWARD M. WILSON,
Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit the thirty-seventh annual report of the Indiana School for Feeble-Minded Youth for the year ending September 30, 1915:

MOVEMENT OF POPULATION

Cottage for adult females	245	236
Custodial cottage for girls	191	193
Total	1,312	1,299

SCHOOL DEPARTMENT.

Our progress in school work is very gratifying, also in industrial work considering the difficulties we labor under of insufficient rooms, and those we have are dark and unsuitable for carrying on industrial classes. The aim of our industrial teachers is directed toward useful, as well as the purely ornamental kinds of hand work; and mittens, caps and sweaters have had the attention of our children in the crocheting and knitting classes, as well as lace and fancy work.

FARM AND GARDEN

We made a valuable step forward this last year when we employed a trained man, a graduate of Purdue University, to take charge of our farm, beginning last April. We already have some results from this change, of a very favorable kind, but we expect the best results from this to show up in a few years.

The erection and completion of two silos has put us in a position to produce more milk at less cost than last year, and as milk is the most important farm product we have, it deserves our best effort.

INDUSTRIES

We are able to make all our shoes, boys' and girls' clothing, and mattresses.

The purchase and installation of power machines for our sewing and tailoring departments has not only increased the output of both those departments, but has relieved some of our best girls from the severe and often too heavy work of running a sewing machine all day.

RECREATION AND AMUSEMENTS

The entertainments by the teachers, the concerts by the band, orchestra, and phonograph, as well as the moving picture shows, are still our most popular forms of amusement.

The library continues to be a most valuable aid not only to amusement, but also for real instruction to both boys and girls.

Our chapel services both here and at the farm have been first class this year, and are, I believe, greatly valued by the children.

MEDICAL REPORT

I am glad to report that we have gotten through the year splendidly. A slight epidemic of measles, splendidly controlled and finally stopped by the vigilance and care of our physicians, was the only

epidemic we had to contend with this year. Our record in diphtheria has been especially good as we have had no case for the last six months, a very good record judging by the past.

The most important thing that occurred in a medical way was the opening of our new hospital in August. This has given us far better facilities for caring for our sick and helpless inmates, and has also enabled us to receive several very helpless cases for which we had no accommodations until now. The old hospital building will be remodelled for a dormitory, giving us increased accommodations for about fifty or sixty girls. A detailed report with tables follows.

IN GENERAL.

Almost every day there are cases presented to us, needing the care and protection of this Institution for which we are unable to provide because of lack of room. This is necessarily so, as this Institution with its capacity for one thousand three hundred in round numbers is only caring for about one-fourth of the people needing such care in this state. More provision should be made; but what, and how, must yet be determined.

In conclusion, I wish to express to the Board my appreciation of your painstaking interest, not only in the financial conduct of the Institution but also in the welfare and best interests of the inmates, and the broad attitude of looking into the future, evidenced by employing a high grade man for our farm, purchasing registered stock, and your evident intention that our farm shall be conducted on up-to-date scientific principles.

Very faithfully yours,

GEORGE S. BLISS, M. D.,
Superintendent.

Thirty-Eighth Annual Report

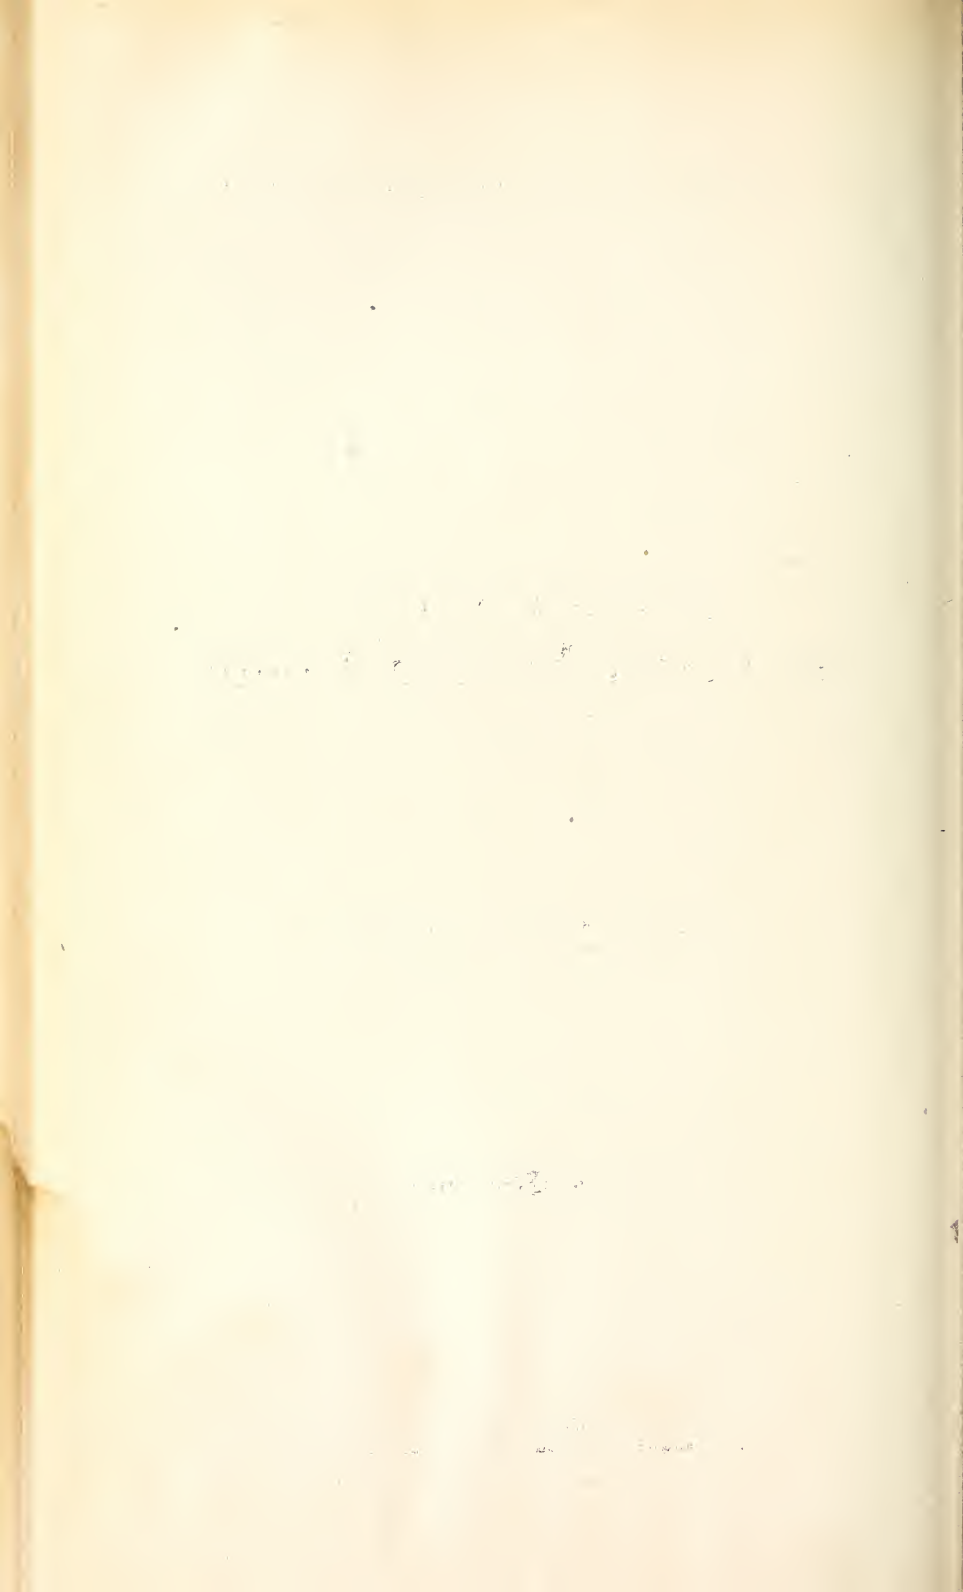

OF THE

Indiana School for Feeble-Minded Youth FORT WAYNE, INDIANA

For the Fiscal Year Ending
September 30, 1916

To the Governor

OAKLAND CITY:
J. W. COCKRUM PRINTING COMPANY, PRINTERS AND BINDERS
1917

THE STATE OF INDIANA,

EXECUTIVE DEPARTMENT,

December 29, 1916.

Received by the Governor, examined and referred to the Auditor of State for verification of the financial statement.

B. B. JOHNSON,

Secretary to Governor.

OFFICE OF AUDITOR OF STATE,

INDIANAPOLIS, December 29, 1916.

The within report, so far as the same relates to moneys drawn from the State treasury, has been examined and found correct.

OTTO L. KLAUSS,

Auditor of State.

Bid for printing examined and approved by Bureau of Public Printing December 22, 1916.

ED. D. DONNELL, Secretary.

Clerk Printing Board.

BOARD OF TRUSTEES.

JAMES W. SALE, President, Bluffton.
CLAY W. METSKER, Vice-President, Plymouth.
EDWARD M. WILSON, Treasurer, Fort Wayne.
MRS. MARY R. HARPER, Secretary, Fort Wayne.

OFFICERS.

GEORGE S. BLISS, M. D., Superintendent.

MEDICAL DEPARTMENT.

THOMAS L. TAYLOR, M. D., Resident Physician.
NELLIE HANAWAY, M. D., Assistant Physician.
STELLA RISSER, D. D. S., Dental Interne.

MEDICAL CONSULTING STAFF.

Surgery.

MILES F. PORTER, A. M., M. D.

Internal Medicine.

CHARLES G. BEALL, M. D.

Eye, Ear, Nose and Throat.

KENT K. WHEELLOCK, M. D.

ACCOUNTING DEPARTMENT.

MELVIN DRUCKEMILLER, Chief Clerk.
MARGARET TOWNSEND, Secretary.
JESSIE LINDSEY, Stenographer and Bookkeeper.
ZOE STEWART, Record Clerk.
WALTER BROWN, Storekeeper.
RAY BROWN, Night Clerk.
DALE COWDERY, Telephone Operator.

SCHOOL DEPARTMENT.

MARY L. ADAMS, Principal.
GRACE THOMPSON, Grammar and Library.
LOIS BURGDOFF, Receiving School and Library.

MARJORIE SMITH, Kindergarten.
 DORA SMITH, Primary.
 MAE ADDISON, Primary.
 MRS. NELLIE B. PENCE, Grammar and Intermediate.
 MARY I. DINE, Primary and Intermediate.
 MARIE WINTERMOTE, Drawing.
 GLENN LEACH, Sewing and Embroidery.
 MARIE TECH, Manual Training.
 TINA FORD, Primary Manual and Industrial (including basketry, weaving, crocheting, knitting, and rug-making).
 LILLIAN ALLEN, Physical Training.
 WAVE CALDWELL, Music (Piano and Voice).
 JENNIE MOORE, Music (Violin and Orchestra).
 META GILMORE, Domestic Science.
 MARIE BUSHMAN, Cutting and sewing rags and simple rug-making.
 F. J. REINKE, Girls' Orchestra.
 G. J. THOMPSON, Boys' Band.
 WALTER KELLEY, Primary Industrial Training.

HEADS OF DEPARTMENTS.

MRS. FRANCES HILDRETH, Matron.
 WILLIAM J. SMITH, Supervisor, Colony Farm.
 HERBERT GRAY, Supervisor East Wing Boys' Ward.
 MRS. ORA MAY, Supervisor Custodial Cottage for Boys.
 NORA G. KUTCH, Supervisor West Wing Girls' Ward.
 EMMA OLDHAM, Supervisor, Girls' Home Cottage.
 MARGARET BRADSHAW, Supervisor Custodial Cottage for Girls.
 LALLA HOPKINS, Supervisor Cottage for Adult Females.
 LEW DeHAVEN, Chief Engineer.
 FRED L. TILBURY, Woodworking.
 CHASE R. FURNAS, Farm and Dairy.
 OSCAR BELL, Outside Overseer.
 BERTHA HAYWARD, Laundry.
 ROSE MURPHY, General Sewing Room.

REPORT OF BOARD OF TRUSTEES.

To the Honorable Samuel M. Ralston, Governor of Indiana:

Sir:—The Board of Trustees of the Indiana School for Feeble-Minded Youth, respectfully submits herewith its thirty-eighth annual report for the fiscal year ending September 30, 1916, together with the detailed report of the Superintendent, showing the various operations of all departments of the Institution.

Following the resignation of Rev. A. M. Ellering as Trustee on May 31, 1916, you appointed Clay W. Metsker of Plymouth to fill the unexpired term, whereupon the Board was reorganized as follows:

James W. Sale, Bluffton, President.

Clay W. Metsker, Plymouth, Vice-President.

Mary R. Harper, Ft. Wayne, Secretary.

Edward M. Wilson, Ft. Wayne, Treasurer.

ADMINISTRATION.

Our efficient Superintendent, Dr. George S. Bliss, remains at the head of the Institution and continues his faithful and conscientious efforts in the care of our children.

SCHOOL DEPARTMENT.

The School Department was interrupted by the loss of our excellent Principal, Miss Edith C. Bell, whose death occurred on May 14th while in attendance upon the National Conference of Charities and Corrections in Indianapolis. Miss M. L. Adams, an experienced educator, was secured to take up the work, and is administering the duties of her office in a very satisfactory manner. At the close of the fiscal year we have an enrollment of 977 receiving training in the educational department, which makes the responsibility of the head of this department of considerable importance, and we feel that a wise selection has been made in the appointment of Miss Adams.

FARM DEPARTMENT.

The result of our farm operations for the fiscal year, while disappointing in some degree on account of the practical failure of garden and cereal crops in this part of the State, nevertheless shows a gain over the previous year's record of nearly \$2,000 in the value of our products and clearly indicates the importance of this department in holding our per capita cost of subsistence at a low figure. The estimated value of farm products for the year was \$28,545.33 of which \$21,577.03 was used in our kitchens; \$467.40 in out-door departments; \$6,069.45 in feed and provender in stock and \$431.45 sold. The net profit being \$8,680.39 as against \$10,126.78 for year ending September 30, 1915. We are yet unable to raise all of the grain and hay needed to care for our stock, and do not have sufficient pasture for our dairy herd and could profitably use 160 acres more than we have. We are pleased to commend our Farm Superintendent, Mr. C. R. Furnas, a very practical farmer, a product of Purdue University, who, with his scientific methods, is rapidly increasing the productiveness of our farm land.

INDUSTRIAL DEPARTMENT.

This department performs a great service to the Institution in the manufacture of clothing, shoes, mattresses, etc., for its population, as well as teaching habits of usefulness and industry, valuable both to the children and to the State.

POPULATION.

The average daily attendance for the past year was 1,305, with an enrollment of 1,374 and actual attendance at the close of the year of 1,350, the net increase for the year being 60. The remodeling and converting of the old hospital into a "Home Cottage" for girls during the year, added 73 beds to our capacity, and enabled us to admit a number of necessitous cases which had been waiting a long time for admission. The population of the Institution has reached its full additional capacity and we have on our waiting list, accepted pending room, 45 boys, 23 girls, and 16 adult females, total 84 against 106 one year ago. Thus with the increased capacity added during the year by the opening of the new hospital and the Girls' Home Cottage, we have only reduced the waiting list by 22, and the

84 accepted pending room can only be admitted when vacancies occur by death, withdrawal or discharge. In the meantime new applications will be filed at the rate of 15 to 20 per month, to augment the waiting list. The total number of deaths, withdrawals, and discharges for the year is 74. The very low average death rate has been practically maintained, being 3% against 2.4% in 1915 and 2.9% in 1914.

REGULAR MAINTENANCE.

Our maintenance appropriation for the fiscal year was \$140 per capita and total expenditure was \$182,827.47 with \$507.19 unexpended, reverting to the State treasury. We were only able to keep within the appropriation by observing the strictest economy throughout the year and reason of the fact that we had an unusual stock of food supplies at the beginning of the year, and the lowest contract price on coal for many years. The per capita allowance for the fiscal year ending September 30, 1917, will remain at 140 and with the tremendous increased cost of fuel and subsistence even over the past year, it appears certain that we shall be unable to maintain our present standard of living within the appropriation, if current high prices continue throughout the year; and a deficit seems inevitable. We will be compelled to request a larger maintenance appropriation for the next biennial period.

SPECIFIC APPROPRIATIONS.

Specific appropriations made by the Sixty-ninth General Assembly, available during the year, are as follows:

Completion of Cold Storage Plant:

Appropriation -----	\$2,500 00
Expended during the year -----	1,835 75
Balance available -----	\$ 664 25

Piggery for 250 hogs:

Appropriation -----	\$1,500 00
Expended -----	1,174 10
Balance available -----	\$ 325 90

Remodeling old hospital:

Appropriation -----	\$8,000 00
Expended -----	7,999 72
Balance available -----	\$ 28

Two silos:

Appropriation -----	\$1,000 00
Expended -----	998 40
<hr/>	
Balance available -----	\$ 1 60

Cement walks to new hospital:

Appropriation -----	\$ 500 00
Expended -----	433 37
<hr/>	
Balance available -----	\$ 66 63

Paving State boulevard:

Appropriation -----	\$7,000 00
Expended -----	6,302 97
<hr/>	
Balance available -----	\$ 697 03

For detailed statement of expenditures under the above appropriations and other statistics, you are respectfully referred to the Superintendent's report herewith.

NEEDS OF THE INSTITUTION.

REGULAR.

Maintenance:—Our maintenance appropriation should be \$195,750.00 or \$150.00 per capita for each year of the next biennial period based on a daily average attendance for the year of 1,305 inmates, which was our average daily attendance for the fiscal year ending September 30, 1916; and \$150.00 per capita for additional inmates actually present in excess of the daily average number of 1,305 inmates. This is an increase of \$10.00 per capita maintenance and is found necessary because of the extremely high cost of food and commodity supplies, as well as increased cost of labor. It will be impossible for this institution to maintain our present standard of living, care and development of this institution on a less per capita cost.

Repairs and Painting:—For repairs and painting we will need \$10,000.00 per annum for the next biennial period ending September 30, 1919. A number of the Institution buildings were constructed from fifteen to twenty-five years ago and on account of their age are in constant need of repairs, such as roofs and gutters, plumbing, heating, electric wiring, wood and

tile floors and painting both inside and outside of buildings. We have found from experience during the past five years that a fund of \$10,000.00 is required to keep the buildings and permanent physical improvements in a proper state of repair.

This request for \$10,000.00 per annum, however, is made upon the classification of expenditures that has obtained in our institution since its establishment. We have used this fund specifically for the repair and painting of our buildings and for permanent physical improvements only. In case we are required to change our classification for the next biennial period so that the repair and painting fund will include the mending of any movable personal property, such as alterations and new parts to farm machinery, wagons, smithing, sewing, shoe shop and mattress industrial work (all of which we have heretofore charged to maintenance), then we must ask that the appropriation be increased \$7,500.00 per annum, as it will require this additional amount to cover this unusual classification from the repair and painting fund.

SPECIFIC APPROPRIATIONS.

Cow Barn Extension and Equipment:—The General Assembly of 1911 granted an appropriation of \$5,000.00 for the construction of a brick sanitary dairy barn. With this appropriation we were able to construct a barn with a capacity for only 40 milch cows while we have 80 cows in our dairy herd, 40 of which we house in the basement of our octagonal frame barn which is unsuitable for both milk production and health of the herd. We desire to complete the dairy barn as originally planned so that the entire dairy herd may be housed in one sanitary barn. The amount necessary to build and equip this addition will be \$6,000.00.

Industrial Railroad into Institution Grounds and Remodeling Coal Bin:—Since the establishment of the Institution it has been necessary to haul in wagons all the fuel and other car load supplies, from the Lake Shore & Michigan Southern Railroad in Ft. Wayne, at least a distance of one mile, until within the last eight years when we made arrangements with the Ft. Wayne & Northern Indiana Traction Company to use their private siding adjacent to their power plant, paying them \$1.00 per car rental for unloading purposes. Their siding is located one-half mile from the Institution grounds. During the month

of December, 1916, the Commissioners of Allen County contemplate the letting of a contract for the construction of a new concrete bridge over the St. Joseph river on State Boulevard. With the completion of a new asphalt pavement on State Boulevard the Ft. Wayne & Northern Indiana Traction Company rebuilt their tracks with heavy steel so as to take care of the car load requirements of the Institution, amounting to about 250 cars per annum. In order to deliver at the Institution grounds our coal and other car lot supplies, it will be necessary to construct an industrial railroad track from State Boulevard into our grounds to the coal bin, and the cars will be handled by the Ft. Wayne & Northern Indiana Traction Company from the Lake Shore & Michigan Southern Railroad into the grounds. This will enable the Institution to make a handsome saving in the cost of handling our coal and other supplies. To construct this industrial railroad track and remodel our coal bin so that the coal from the cars may be dumped directly into the bins, will require an appropriation of \$12,500.00.

Cement Reservoir for Reserve Water Supply:—The water supply of the Institution, amounting approximately to 500,000 gallons per day of twenty-four hours, is furnished from one well on Institution grounds and is pumped into a small reservoir of a capacity of about two hours requirements. We are in constant danger therefore of a water famine and need a water storage capacity sufficient to supply the Institution for at least forty-eight hours in case of emergency or a breakdown of any of the pumping machinery. The cost of such a reservoir, having a capacity of approximately 1,000,000 gallons with cover, will require an appropriation of \$20,000.00.

Farm Land: —Our Colony Farm at present consists of 509 acres, a considerable portion of which is not suited to intensive agricultural crops. To provide forage and additional concentrated feed for our farm and dairy animals, it is necessary to expend approximately \$6,000.00 annually. We believe the Institution should have the advantage of additional acreage; and if the same can be purchased at a price ranging from \$135.00 to \$150.00 per acre, we would urgently recommend an appropriation for this purpose. While we feel the need of 160 acres of additional land, we find we will not be able to purchase more than 80 acres adjacent to the State's present holdings. For the purchase of 80 acres additional land we will require an appropriation of \$11,000.00.

Paved Roadways:—Our main Institution grounds, consisting of 54 acres, located now within the limits of the city of Ft. Wayne, contain the buildings housing all the inmates except about 180 boys, who live at our Colony Farm. These grounds are entirely without paved roadways and it is unsightly to have the roadways without curb and gutter. During the past year State Boulevard, which runs for a distance of 1,700 feet in front of the Institution grounds, was paved with asphalt and it is our desire to pave the main roadways leading from the Boulevard into the grounds to the main entrance of the Institution, as well as the roadway in the rear of the main building to our supply house. For the purpose of building these roadways with curb and gutter and resurfacing roadway, we will require an appropriation of \$2,500.00.

Brick-making:—For the purpose of making brick for the construction of dairy barn and alterations in coal bin building we will require an appropriation of \$1,500.00.

Colony Farm Heating Plant and Equipment:—On November 18th the heating boiler, located in the basement of the main building at Colony Farm, was disabled by the disruption of two steam sections. We at once arranged for the installation of a number of oil and coal heating stoves in the building to keep the rooms warm enough for the children until such time as we could investigate and carefully determine the extent of damage to the heating boiler. We found that two sections had bursted and that a number of other sections were in a weak condition and liable to give way at any time. It is a case simply of the boiler wearing out with age and use, as it has been in service about fifteen years.

It is our desire to install a new heating plant outside of the main building so as to reduce the fire hazard to the minimum. This is an emergency condition and we trust that we may have the appropriation for the construction of a new heating plant available early in the year of 1917 so that we may have the plant installed and completed before the following winter.

For the purpose of building a new boiler house, coal storage and stack, and the installation of two heating boilers, hot water heater, pump and the repiping of the main building, providing for additional radiation, we will require an appropriation of \$14,200.00.

FUTURE OF INSTITUTION.

By the foregoing it will be seen that this Institution is crowded to the doors, with applications pouring in each month, many of them revealing most distressing conditions prevailing in homes and public places of detention. It seems imperative that the State must very soon take cognizance of the large number of dependent defectives at large in the State, a menace to society, increasing at a rapid rate, and take steps to segregate them from the public, and thus check their reproduction, not alone as a matter of philanthropy, but as an economic measure. In view of the near approach of the General Assembly we, therefore, deem it our duty to express our views on some of the subjects with respect to the care of these defectives, which have been under investigation by commissions and discussed in the public press recently.

It is evident that additional housing must be provided very shortly for feeble-minded children of school age either by the enlargement of this Institution or the establishment of a new one. It is our judgment that the Ft. Wayne Institution has reached the maximum capacity that can be properly cared for by one administration, as expressed in our annual report for the fiscal year ending September 30, 1912. With practically 1,400 inmates and 200 employes in care of one man, his time and talents will be fully occupied. We do not believe that there should be any enlargement of this Institution, but would recommend that the Epileptic Institution be immediately enlarged to accommodate all ages and both sexes of epileptics, so that 200 to 250 of the feeble-minded epileptics in our school would be transferred to that institution. The establishment of the Indiana School for Feeble-Minded Youth, as its name implies, was undoubtedly intended to shelter and educate children of school age from 6 to 16 years. Some years after it was opened, a separate and distinct department was ordered by the General Assembly, to care for adult feeble-minded women of child-bearing age, 16 to 45. This department is kept separate and distinct from the balance of the Institution and has been provided with two excellent buildings with capacity of 262 beds fully occupied. This department has always been over-crowded, and it is a matter of authentic report that about 500 adult women of this class are receiving custodial care from the different counties, in jails and county infirmaries,

and with little or no restraint upon them, are a constant menace to society. It is our earnest conviction that the time has come when the State should make provision for these unfortunates, as well as for adult men of the same class, by the establishment of a new and separate institution to house them from the danger of contact with the public. If we were relieved of the care of the epileptics and adult women, we could care for about 500 more boys and girls and meet all demands for this class for ten years to come. It is the opinion of some of our best posted authorities in the State that a colony for mental defectives should be started in the southern part of the State on large areas of land, where climate, cheap land values and cheap fuel would be advantageous. We favor the plan, but are convinced that such an institution should be under separate control, rather than a part of our Institution.

Under the present law, school children are admitted on the application of parent, guardian, nearest friend, etc. In our annual report of 1906 we strongly urged that the law be changed requiring the commitment of all children by the courts of the State in the same manner as adult women are committed, with provision in the law making the State or the trustees the legal custodian of each inmate.

We are pleased to note that "The Committee on Mental Defectives" appointed by you to study the problem of Mental Defectiveness in Indiana, recently urgently recommended the enactment of such a law, and we wish to strongly endorse their recommendation and urge that this remedial legislation be had at the coming session of the Legislature. We have deeply felt the need of this law in several cases in recent years, where we found ourselves utterly helpless to prevent the withdrawal of girls by parents or relatives while we knew they were unfit to be out in the world, and when we were absolutely certain they were withdrawn for selfish purposes, and in some cases for immoral purposes.

In conclusion, we desire to thank you for courtesies extended and assistance given us during the year.

Respectfully submitted,

JAMES W. SALE,
CLAY W. METSKER,
MARY R. HARPER,
EDWARD M. WILSON,
Trustees.

REPORT OF SUPERINTENDENT.

To the Board of Trustees:

I have the honor to submit the thirty-eighth annual report of the Indiana School for Feeble-Minded Youth for the year ending September 30, 1916:

SCHOOL DEPARTMENT.

Our school of letters is now very well organized, and I believe sufficiently complete to answer very thoroughly the needs of the Institution. When it comes to industrial training of the children, we are laboring under considerable difficulties. In the first place, we haven't enough rooms for carrying out modern industrial training for the feeble-minded; in the second place, some of the rooms that we are compelled to use are poorly lighted and situated for the carrying on of this very important class of training. As time goes on and experience broadens in the care and training of the feeble-minded, it has come to be an accepted belief with all those actively engaged in the work, that the school of letters is of very little importance, and that industrial training is of the utmost importance for this class of people. I personally believe that inasmuch as most of the children in the Institution ought to remain under the protecting care of the Institution all their lives, that this training should be so shaped and directed as to fit these children to be as useful economic units of the Institution as training can make them. I earnestly believe that this Institution needs more room and equipment for this class of training.

The Institution met a very great loss last year in the death of our principal of the school, Miss Edith C. Bell, who was taken sick on Thursday, May 11th, at Indianapolis, while overseeing our exhibit at the National Conference of Charities and Corrections, and who died the Sunday following, May 14th, at the Robert W. Long hospital. Every child in the Institution lost a friend when Miss Bell died, as she not only had a very fine grasp of school work, but she also had a wonderful understanding of the defective child and its needs, and a sympathetic way of dealing with them that was very satisfactory. We have secured in her place Miss M. L. Adams, a young lady of considerable experience as principal in this class of schools, who has the very highest recommendations, and I believe will make a successful principal.

FARM AND GARDEN.

Our farm this year was not the success that it was last; not from the lack of effort or endeavor, but from climatic conditions over which we had no control. Our trained farm superintendent, with the same herd of cows and the same amount

of feed properly applied, increased our milk production during the first year of his services \$2,000.00 over what it was the year before. Our potato crop and our garden vegetables, along with all the north central part of the State, suffered very much from the poor season; whereas last year was the very best year for garden products we have ever had, this year has been a poor one. Our greatest need is more land for cultivation. We have not enough land to maintain our present herd of cows to the best advantage. We are obliged to purchase too much grain and even hay, although the addition of our silos last year has been the most valuable help toward maintaining this herd. More land is needed here for successful farm operations. There was produced from our farm and garden this last year over \$28,000.00 worth. This can be increased some by careful management of our present land, but with the best results that we can expect from such management, it will not prove adequate to our needs, and I earnestly recommend the addition of at least 160 acres to our present farm.

INDUSTRIES.

Our regular industries have been maintained as usual. We are making all the shoes, clothing for both boys and girls, and mattresses that are used in the Institution. We also make all the sheets, bedding linen, and towels used in the Institution. These departments, however, are crowded to their utmost capacity, and our greatest need is for some boys and girls who have been trained to do this work before they have to be put into industries where the amount of output is of importance.

RECREATION AND AMUSEMENTS.

"All work and no play makes Jack a dull boy," and we recognize that important fundamental truth in the care and training of young people, by providing a large variety of amusements for our children. Our teachers organize and direct entertainments such as, Hallowe'en, Thanksgiving, Christmas, also entertainments not directly related to some holiday. We have monthly concerts by the band or orchestra, evening entertainments by the phonograph and the moving picture shows. Besides these, our children, when the weather will allow, have out-door walks, baseball, football, and the various

games that make interest and occupy the children. For the long winter evenings, we have our library for both the boys and girls. We have found this an exceedingly valuable help, not only in instruction and amusement for the children, but also in discipline as well. Many of our boys and girls through the long winter evenings might, and probably would, prove troublesome to discipline on the wards, are occupied and amused as well as instructed by the library work. The services of the library have been extended the last year to those in the cottages, and at the farm, by the system of loaning books to these children for reading, and having them returned properly, just as they are handled by a circulating library.

Our children enjoy and seem to delight in taking part in our chapel services. One of the greatest drawbacks in our recreation and amusement work is the lack of a suitable assembly hall. Our present room, where chapel services are held, was built to accommodate about 500 children. We are able to crowd into this room about 600 at the best, and one of the things that would be of a great help to the Institution would be an assembly hall with a well equipped stage to seat from 1,000 to 1,200 inmates.

MEDICAL REPORT.

In a medical way we have gotten through the year without any serious epidemic of contagious diseases. Up to a few months ago, our record for freedom from diphtheria that we started last year was maintained. We then had a case develop from the visit of a mother, who herself had recently had diphtheria, and have had quite a number of cases develop from this initial case. We have also had a rather unusual number of deaths from pneumonia. We do not feel, however, that this was due to poor care or to poor conditions, but rather to the fact that many of our older epileptics and low-grade boys are reaching an age beyond which we could not reasonably hope for their life to be prolonged, and as many of these cases of this class, particularly epileptics, are apt to die from pneumonia, we feel that on the whole conditions are very good.

Our new hospital has been a most valuable aid in caring for our sick and helpless children. It is, however, filled to its doors practically all of the time, and I believe that it will be only a very short time before we will be compelled to add the other wing that was projected when the building was first planned.

The old hospital building has been remodeled for a dormitory building for girls, thus enabling us to take in seventy-three new inmates. To this building we have transferred the better class of girls from the west wing, and filled up their places with some more urgent cases that have been on the waiting list for some time. We are still unable to receive all the cases that need attention. It can readily be seen that this must be so, since there are, at the least conservative estimate that can be made by the people who know, at least 6,000 feeble-minded people in Indiana needing institutional care today. In as much as this Institution has provision for 1,368, it can be readily seen that there still exists, and will exist until very much more extensive provision can be made than there is being furnished now by the State of Indiana, a pressing need for the care of these poor unfortunates. No provision is made for the adult feeble-minded male from sixteen to forty-five, and I personally regard many of this class of defectives of the high-grade imbecile and moron type, quite as dangerous to society as the high-grade imbecile and moron girl. This class of adult males can, I believe, be most satisfactorily and economically provided for on the farm colony plan, needing no complicated institution, no expensive buildings for their care, but they do need plenty of land, and comfortable housing in inexpensive buildings, and competent supervision. This colony plan can, and I believe, should, be applied also to the adult women, modified sufficiently to meet their needs. The defective delinquent woman and girl can, I believe, be handled in this way better than any other that can be devised for her control and supervision. This type of defective almost invariably love animals, are intelligent enough so that under supervision they can give animals good care, and generally have the physical energy and strength that demands some physical output.

The present high prices of food, scarcity of coal supply with high prices is alarming from an institutional point of view. With practically all of the staple supplies for Institutions at double or more than double the price that we have been paying in the past, the prospect for the coming year of being able to provide proper food and clothing, heat and light for our inmates within our appropriation already made for the coming fiscal year is extremely doubtful. I believe that this Board should recommend to the Governor and the coming Legisla-

ture that some provision should be made to meet the deficit should there be no relief in the present prices.

In conclusion, I want to thank the Board for another year's support and express my appreciation for your continued interest and effort for the best good of the Institution.

Very sincerely yours,

GEORGE S. BLISS, M. D.,
Superintendent.

Thirty-Ninth Annual Report

of the

**Indiana School
for Feeble-Minded Youth**

Fort Wayne, Indiana

For the Fiscal Year Ending
September 30, 1917

TO THE GOVERNOR

REPORT OF INDIANA SCHOOL FOR FEEBLE-MINDED YOUTH

THE STATE OF INDIANA,

Executive Department,
January 1, 1918.

Received by the Governor, examined and referred to the Auditor of State
for verification of the financial statement.

Office of Auditor of State,
Indianapolis, February 25, 1918.

The within report, so far as the same relates to moneys drawn from the
State Treasury, has been examined and found correct.

OTTO L. KLAUSS,
Auditor of State.

February 25, 1918.

Returned by the Auditor of State, with above certificate, and transmitted
to Secretary of State for publication, upon the order of the Board of Com-
missioners of Public Printing and Binding.

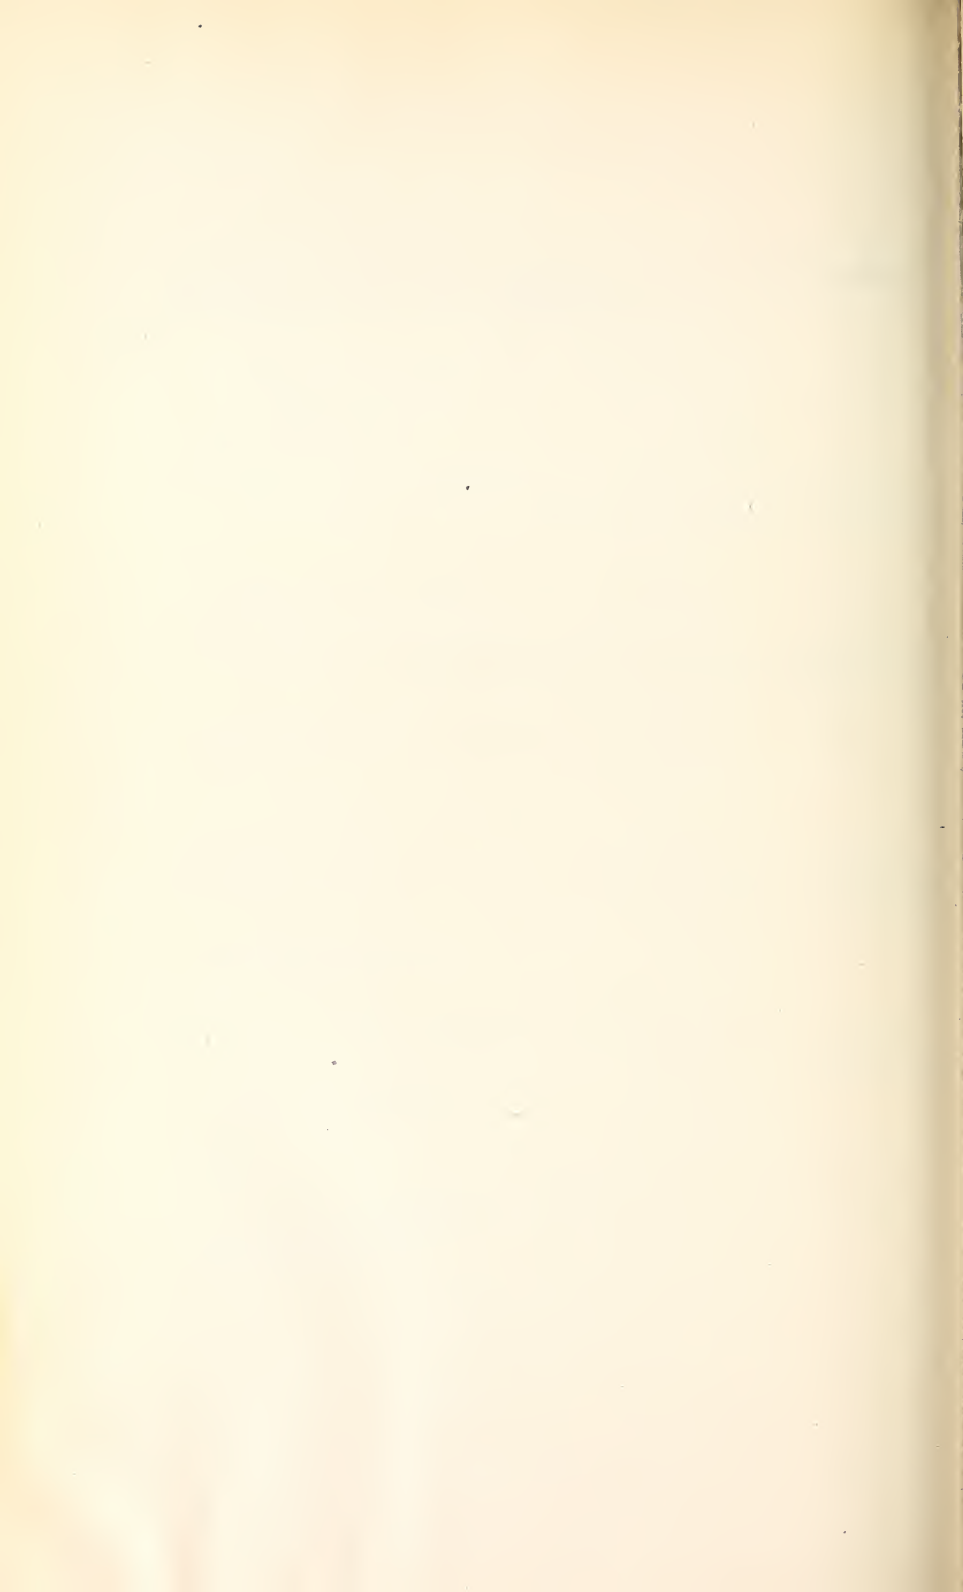

F. P. LITSCHERT,
Secretary to the Governor.

Filed in the office of the Secretary of State of the State of Indiana, Feb-
ruary 25, 1918.

WILLIAM A. ROACH,
Secretary of State.

Received the within report and delivered to the printer March 4, 1918.

DIRRELLE CHANEY,
Clerk Printing Board.

BOARD OF TRUSTEES

JAMES W. SALE, President, Bluffton.
WM. B. WALSH, Vice-President, Frankfort.
EDWARD M. WILSON, Treasurer, Fort Wayne.
MRS. MARY R. HARPER, Secretary, Fort Wayne.

OFFICERS

GEORGE S. BLISS, M. D., Superintendent.

MEDICAL DEPARTMENT

THOMAS L. TAYLOR, M. D., Resident Physician.
NELLIE HANAWAY, M. D., Assistant Physician.
WM. J. MOONEY, D. D. S., Dental Interne.

MEDICAL CONSULTING STAFF

Surgery

MILES F. PORTER, A. M., M. D.

Internal Medicine

CHARLES G. BEALL, M. D.

Eye, Ear, Nose and Throat

KENT K. WHEELLOCK, M. D.

ACCOUNTING DEPARTMENT

MELVIN DRUCKEMILLER, Chief Clerk.
MARGARET TOWNSEND, Secretary.
HENRIETTA NIEZER, Stenographer and Bookkeeper
ZOE STEWART, Record Clerk.
WALTER BROWN, Storekeeper.
MRS. MYRTLE EMERICH, Night Clerk.
OLTIE GEYER, Telephone Operator.

SCHOOL DEPARTMENT

MARY L. ADAMS, Principal.
GRACE THOMPSON, Grammar and Library
MARGARET THORNBURGH, Kindergarten.

FANNIE B. FORD, Primary.
 GRACE POWELL, Primary and Library.
 ZURA ALLEN, Grammar and Intermediate.
 VERNETTA PALMER, Primary and Intermediate.
 ETHEL M. HARTSUFF, Sewing and Embroidery.
 MARIE WINTERMOTE, Drawing.
 MARIAM MORRISS, Manual Training.
 EDITH RICHARDS, Primary Manual and Industrial (including basketry weaving, crocheting, knitting and rug-making).
 ELVA ARBUCKLE, Physical Training.
 AGNES PETERSON, Music (Piano and Voice).
 MABLE K. HAYNES, Domestic Science.
 GRACE OGG, Cutting and Sewing Rags and Simple Rug-making.
 MARY I. KING, Music (Violin and Orchestra).
 G. J. THOMPSON, Boys' Band.
 HERBERT GRAY, Primary Industrial Training.

HEADS OF DEPARTMENTS

MRS. FRANCES HILDRETH, Matron.
 WILLIAM J. SMITH, Supervisor, Colony Farm.
 J. C. BENCH, Supervisor, East Wing Boys' Ward.
 MRS. ORA MAY, Supervisor Custodial Cottage for Boys.
 FLOE FORD, Supervisor West Wing Girls' Ward.
 EMMA OLDHAM, Supervisor Girls' Home Cottage.
 MARGARET BRADSHAW, Supervisor Custodial Cottage for Girls.
 LALLA HOPKINS, Supervisor Cottage for Adult Females.
 LEW DEHAVEN, Chief Engineer.
 FRED L. TILBURY, Woodworking.
 CHASE R. FURNAS, Farm and Dairy.
 OSCAR BELL, Outside Overseer.
 BERTHA HAYWARD, Laundry.
 ROSE MURPHY, General Sewing Room.

REPORT OF BOARD OF TRUSTEES

TO THE HONORABLE JAMES P. GOODRICH, GOVERNOR OF INDIANA:

Sir:—We have the honor to submit herewith the thirty-ninth annual report of the Indiana School for Feeble-Minded Youth for the fiscal year ending September 30, 1917.

There has been one change in the personnel of our Board of Trustees during the past year. On April 7, 1917, the term of office of Mr. Clay W. Metsker of Plymouth expired, and Mr. William B. Walsh of Frankfort was appointed by you as his successor. At the regular meeting of May 8, 1917, the Board reorganized with the following officers:

James W. Sale, President.

William B. Walsh, Vice-President.

Mrs. Mary R. Harper, Secretary.

Edward M. Wilson, Treasurer.

There are no changes in the administration of importance to report during the year. We wish to commend the administration of the Superintendent and his able corps of assistants, who have by their loyal co-operation made possible the steady progress in the many departments of the Institution along lines most gratifying to the Board. We would respectfully refer you to the Superintendent's report for the various statistical exhibits covering the operations of the Institution for the year.

The growth of the Institution has been steady. Normal conditions have obtained throughout every department. General efficiency and the high standard of the Institution have been maintained. The average daily attendance for the past year was 1,375 with an enrollment September 30, 1917, of 1,432; an increase of 70 in average daily attendance over last year. We have had the usual large number of applications for admission presented to the Institution during the year, classified as follows: Boys 57, girls 46, adult females 14, Total 117; of which we have accepted pending room 101. We have admitted into the Institution during the year 120, application for some of which had been accepted during the previous years pending room. There are on file at the present time 60 applications accepted, which we are not in a position to receive on account of the lack of room. We have 128 applications for admission which have not been acted upon by the Board, waiting for complete information. The admission of 120 inmates during the year was made possible only by withdrawals and deaths. The health in the Institution has been uniformly good throughout the year with the exception of an

epidemic of diphtheria and measles in which we had one death from 47 cases of diphtheria and 198 cases of measles. The total number of deaths for the year was 49 or an average death rate of 3.5%. This is a low death rate when we consider that we are caring for one hundred hospital cases continually, of which thirty-two are permanent hospital patients.

We are pleased to call your attention to the results of our farm operations. The farm has made the most profitable showing of any year. The estimated value of farm products last year was \$28,545.33 and for the present year \$34,798.53 being an increase of \$6,253.20. The net profit above all cost of labor and supplies was \$9,269.10 for the year. With such a showing we feel that it would be great economy for the State to provide additional suitable farm land, which would enable us to raise more nearly all of the grain and forage required for our stock and provide pasture for the dairy herd as well as additional garden produce for table use. In a year of excessively high prices such as we are experiencing at this time, additional farm land would enable us to keep down our expenditures for maintenance. Our maintenance appropriation for the fiscal year was \$140.00 per capita with a total expenditure of \$192,620.26. Only by the strictest economy and the most careful attention to the purchase and use of supplies were we able to go through the year within our appropriation.

Following are the expenditures from the various funds, both regular and specific for the fiscal year ending September 30, 1917:

Maintenance Fund	\$192,620.26
Repairs and Painting	10,000.00
Completing Cold Storage Plant	220.88
Piggeries	325.90
Brick Making	566.42
Colony Farm Heating Plant	491.70
Industrial Railroad into Institution Grounds	3,400.70

In concluding this report we wish to express our grateful appreciation of the interest you have shown in the welfare of this Institution.

Respectfully submitted,

JAMES W. SALE,
WILLIAM B. WALSH,
MARY R. HARPER,
EDWARD M. WILSON.

REPORT OF SUPERINTENDENT

To the Board of Trustees:

I hereby respectfully submit the thirty-ninth annual report of the Indiana School for Feeble-Minded Youth for the year ending September 30, 1917:

MOVEMENT OF POPULATION

	Boys.	Girls.	Adult Females.	Total.
Enrolled September 30, 1916	584	523	267	1,374
Admitted during the fiscal year	47	61	12	120

Custodial cottage for girls	187	193
Girls' Home cottage	75	75
Residents in hospital	32	32
Total	1,432	1,427

SCHOOL DEPARTMENT

Our schools have run about as usual during the past year. We are trying to devote as much of our effort as possible toward the industrial training of the children. The greatest hope that the defective person has of being of some service in the world is in what he may be able to do with his hands. One of the very marked characteristics of the feeble-minded as a class lies in the fact that they are not only mentally deficient, but they also have to a very marked degree physical defects, which prevent their doing easily or well work that normal people learn to do without difficulty. If we take this into consideration, the necessity of industrial and physical training of these people becomes at once of the utmost importance, and we are attempting to meet the needs of these individuals along these lines. The school of letters for the children is necessary because the boy or girl, who can count, can do better work in the shop, on the farm or at domestic work. The boy or girl, who can read well, has resources in our library for amusement and entertainment that are not available for those who were unable to learn to read. Furthermore, by far the greater part of these children are sent to this Institution by parents and friends with the idea that they are to be given schooling of the same class and character as other children are getting in the public schools. These friends and relatives demand this schooling, and we must satisfy this demand in part, if we are to have the opportunity to do the child the good that he needs and that this Institution alone can give. Because of these facts, we must give a certain amount of our time to the school of letters, and I believe that we are doing all that will satisfy the needs along this line.

FARM AND GARDEN

I am glad to report a very prosperous and successful year in our farm operations. The entire production of the farm and garden crops on the Institution land this year amount to the sum of \$34,798.53. This amount does not represent the present market value of products; the amounts credited to the farm for the various things raised and sent into the Institution being about what the average has been for these products during the last three or four years. I think that it is rather unfortunate for the purpose of comparison of the different Institutions that one standard price for products of the farm and garden is not established, and I would like to suggest that you take this matter up with the Central Purchasing Board and see if a uniform price could not be established by which the value of the farm products of the various Institutions might be made on an equal basis as to prices; for instance, we have credited our milk to the farm at a value of two cents per pound or approximately four cents a quart. At this

price the milk production shows a credit to the farm of \$11,486.40. The addition of half a cent, making it five cents a quart, would mean an addition to our farm products of \$2,871.60. We have, however, felt that it was wiser not to inflate our production by present prices only to show a falling off in later years. We raised over a hundred acres of corn this year, whereas, in former years our production has only been about seventy acres at the highest. I want to call particular attention of the Board to the work that we are doing with our dairy. Below I am giving you a comparative table of our production during the last three years, which will speak for itself. I do not believe that we have yet reached the maximum that can be attained along this line, but I do feel that we have done our best to make progress toward better things not alone in the quantity of production of milk, but also in the standards of blood and breed in our herd of cows. Our average production for the last year was 8,132 lbs., which was a raise over 1914 of 1,157 lbs. If you compare this with the average production of the State of New York, at present the best dairy state in America, which is a little over 5,000 pounds; and the average production of the State of Indiana, which is about 4,000 pounds; together with the average production of the United States, which is about 4,000 pounds, you can get a better idea of the work that we are accomplishing with our herd of cows. I personally feel very proud of the results that we have attained, and I want to assure the Board that we shall not discontinue our efforts to better results in the future because of the success already attained.

The milk production in the Institution dairy for the last three calendar years, counting all cows in the herd giving milk, even a part of the year, has been as follows:

1914—Number of cows....65—Total production....453,588 lbs. Avg. 6,975 lbs.
 1915—Number of cows....67—Total production....536,921 lbs. Avg. 8,013 lbs.
 1916—Number of cows....70—Total production....569,231 lbs. Avg. 8,132 lbs.

The milk production, considering only the cows that were on record for production throughout the yearly periods is as follows:

	1914	1915	1916
Average milk production	7303 lbs.	7967 lbs.	8320 lbs.
Average butter production	305	324	364
Average butter and fat production.....	3.55 Pct.	3.45 Pct.	3.51 Pct.

	1914	1915	1916
Number of cows making 14,000 lbs.	1
Number of cows making 13,000 lbs.	1	..
Number of cows making 12,000 lbs.	2	..
Number of cows making 11,000 lbs.	2	3
Number of cows making 10,000 lbs.	5	12
Number of cows making 9,000 lbs.	7	13	9
Number of cows making 8,000 lbs.	11	11	10

The average production for milch cows in the entire United States given in the United States Department of Agriculture, Bureau of Animal Industry, Circular No. 103, is as follows:

Year.	Milk.	Butter.
1850	1,436 lbs.	61 lbs.
1860	1,505 lbs.	64 lbs.
1870	1,772 lbs.	75 lbs.
1880	2,004 lbs.	85 lbs.
1890	2,709 lbs.	115 lbs.
1900	3,646 lbs.	155 lbs.
1910	4,000 lbs.	171 lbs.

We have come to realize the immense additional profit in retaining in the dairy herd only high producing cows as the following comparison will show.

Our dairy cows are fed two rations; one for body maintenance and repairs, and an additional amount according to capacity and requirements for milk production.

Our 1916 yearly ration figured on the best producing cow, the average producer and the lowest record cow, as follows:

	Lowest	Average	Highest
To maintain a 1,100 lb. dairy cow for 365 days of one year @ .1045 per day	\$41.94	\$41.94	\$41.94
To produce 5,439 lbs. milk @ .0038 per lb.	20.67
To produce 8,020 lbs. milk @ .0038 per lb.	30.48
To produce 14,643 lbs. milk @ .0038 per lb.	55.64
Total cost of milk and maintenance.....	\$62.62	\$72.43	\$97.59
Value of milk from each cow @ 2c lb.	\$108.78	\$160.40	\$292.86
Cost of feed consumed	62.62	72.43	97.59
Value of milk over feed consumed.....	46.16	87.97	195.27
Figuring cost of labor to each cow	20.00	20.00	20.00
Net profit on milk produced	\$ 26.16	\$67.97	\$175.27

This will show as much profit on the best cow as on seven of the lowest producers.

Production costs on feeding basis for the three classes:

Cost of 100 lbs. of milk from lowest cow 5,439 lbs. for \$62.62, equals	\$1.151
Cost of 100 lbs. of milk from average cow 8,020 lbs. for \$72.43, equals	.903
Cost of 100 lbs. of milk from highest cow 14,643 lbs. for \$97.59, equals	.666

These feed costs were estimated on prices prevailing early in 1916.

INDUSTRIES

Our industries continue to be exceedingly useful as well as profitable. The manufacture of all the shoes, clothing for both boys and girls, of mattresses, bedding linen, and other articles too

numerous to mention, furnishes occupation for a large number of our inmates. The number and variety of these industries I hope we shall be able to increase later on. We should not leave out of the industries the boys, who are made use of in the farm operations; the large number of inmates, who help in the various departments, not strictly industrial, in the Institution, such as shoveling practically all of the coal; those used in the storehouses and meat rooms, help in the laundry, kitchens, and other departments, where without the help that these inmates furnish it would be necessary to employ a great many more people at an added cost to the State.

RECREATION AND AMUSEMENTS

The past year has been an exceptionally good year with respect to this matter of vital importance to the life of the inmates. The entertainments furnished by our Orchestra and Band, the special entertainments worked up by our teachers, the phonograph and moving picture entertainments are additional sources of pleasure to our children. Of course, during the summer our large playgrounds with the simple but durable playground apparatus that we have mostly made ourselves, the usual outdoor sports enjoyed by children, are sources of unending delight furnishing most valuable help in the care and discipline of the children. Without these amusements the necessity for discipline would be very much increased and the difficulty of properly controlling the children would become exceedingly burdensome. I spoke last year of our need of an assembly hall, where our children could be gotten together for these entertainments. We now have to split them up and thereby double the work of the people giving the entertainments by repeating them two or three evenings in order to reach all of our children. I sincerely hope that it will be possible within a few years for us to have an assembly hall that will seat twelve or fifteen hundred people.

MEDICAL REPORT

Our medical year has been a very good one with one exception. We had a severe epidemic of measles originating from three of our employes coming down with the disease practically at the same time. These three employes being employed in different parts of the Institution spread the disease very thoroughly in our midst, and we had a large number of cases; most of them were very light cases without serious results; 198 of our inmates and 16 employes contracting the disease.

The diphtheria that started and was reported on the last annual report continued to bother us through the winter. The use of antitoxin, however, prevented any serious case. Every case

was controlled and we had but one death from the 47 cases of diphtheria, and this case was that of a very weak and sickly child, who might have died from a severe cold so poor was her physical condition. We have a number of deaths from epilepsy as is to be expected in a population of over two hundred epileptics, many of whom have been here for a good many years. Aside from the epidemics of measles and diphtheria, the general health of the inmates has been very satisfactory indeed.

With our new hospital we have been enabled to provide every case of sickness immediately with hospital care either among our children or employes. In spite of the additional room afforded by our new hospital, it has been practically full all of the time, and I believe that in the near future we shall have to add the other wing, which was contemplated when the plans were made for the building.

I am very proud to be able to report to the Board that we have gone through this year on the appropriation made for us by the Legislature. We were only enabled to do this, however, by the fact, that we started in last year with a generous supply of coal on hand, with our store houses filled full, and by using the utmost care and caution in the purchase of supplies, going without many things that we would liked to have had and that in years before we have been enabled to have, in order to go through the year without a deficit.

We started in the new year with but little coal on hand, fewer supplies in the store houses, and a steady increase in the rise of prices. I predict that, if present conditions remain and prices attain to what they give promise of doing, we shall reach a large deficit by the end of the next fiscal year. I want to assure the Board that we shall do everything in our power to make this deficit as small as possible. The large amount of farm and garden products that we have raised this year is going to be a great help to us toward this end, but, in spite of all that we can do, I feel certain that there will be a considerable deficit by September 30, 1918. This year has been one of unusual stress and trial, and the coming year will probably be more so.

I want to thank the Board for your interest in the Institution, and the personal support accorded me during the past year's work.

Very sincerely yours,

GEORGE S. BLISS, M. D.,

Superintendent.

SCHOOL ENROLLMENT

Morning

Classes.	Enrollment.
1. Boys, kindergarten	14
2. Boys, 1st primary	23
3. Boys, 2d primary	11
4. Boys, 3d grade	19
5. Boys, 4th and 5th grades	26
6. Girls, kindergarten	18
7. Girls, 1st primary	24
Total	135

Afternoon

8. Boys, kindergarten	14
9. Boys, 1st primary	12
10. Girls, 1st primary	16
11. Girls, 2d and 3d grades	15
12. Girls, 4th and 5th grades	18
13. Boys, beginning special	11
Total	86

Manual, Music and Physical Training

14. Girls, needle work	112
15. Custodial cottage for girls, needle work	14
16. Adult female department, needle work	31
17. Girls, bobbin lace	15
18. Elementary sewing	90
19. School children, girls, physical training	129
20. School children, boys, physical training	112
21. Adult female department, physical training	38
22. Custodial cottage for girls, physical training	29
23. Piano	14
24. Violin	18
25. Orchestra	15
26. Band	28
27. Boys, sloyd	29
28. Boys, elementary manual training	70
29. Girls, elementary manual training	104
30. Girls, domestic science	26
31. Girls, drawing classes	72
32. Boys, drawing classes	70
Total	1,016
